ANNEX A – Statement of Work

1. Introduction:

- 1.1 The Correctional Service of Canada (CSC) Health Services require the services of a psychologist for offenders located in the Greater Ontario and Nunavut District in the Ontario Region.

The psychologist will provide psychological assessment and/or treatment services to offenders and collaborate with the interdisciplinary health services team that includes, but is not limited to nursing, psychology, social work, occupational therapy and other allied healthcare professionals. Collaboration with the case management team is also essential and in community sites, the treatment/supervision team also includes the Parole Officer Supervisor, Parole Officer, and the CSC staff psychologist and/or the Project Authority.

2. Background:

- 2.1 CSC has a legal obligation, under the Corrections and Conditional Release Act (CCRA), to “provide every offender with essential health care and reasonable access to non essential mental health care”.
- 2.2 The Commissioner’s Directives 800 series are the key references on essential health services covering Clinical services, mental health and public health services.
- 2.3 The mission of Health Services is to provide offenders with efficient and effective health services that **encourage individual responsibility, promote healthy reintegration and contribute to safe communities**.
- 2.4 Consistent with its transformation agenda, CSC recognizes that health outcomes are a shared responsibility between service providers and offenders. Offenders must be involved in taking responsibility and proactive measures to safeguard their health, which includes mental health.
- 2.5 In institutional settings, Health Services are provided in ambulatory Health Service Centres in institutions, regional hospitals and regional treatment / psychiatric centres. Incarcerated offenders may have to go to the community for emergency services, specialized health care services and for hospitalization that cannot be accommodated in CSC’s regional hospitals. In CSC, health care is provided by a wide range of regulated and non-regulated health professionals.
- 2.6 In broad terms health care means medical, dental, mental health care and public health services. During the period of incarceration, offenders are provided with a range of coordinated health services that are accessible, affordable, and appropriate to the correctional environment.

3. Objective:

- 3.1 Provide essential and non-essential mental health and/or psychological assessment or psychological risk assessment services to offenders, as requested by the Project Authority, as a psychologist at the Contractor’s business location in the Kingston area in the Ontario Region or other CSC approved locations when needed, including PHIPA approved video conferencing devices with prior approval by the Project Authority.

3.2 Treatment Orientation

The treatment/counselling orientation utilized by Correctional Service Canada (CSC) is cognitive-behavioural. All psychological treatments offered to offenders by the contractors must be evidence-based with known application to offender populations. The principal focus of treatment will depend on the nature of the referral and the offender's needs. Although the usual objectives of treatment include the reduction of risk to reoffend, a priority should also be placed on the amelioration of the offender's mental health and emotional or behavioural functioning, including feelings, attitudes, beliefs and behaviours that moderately to severely impact or interfere with daily functioning. The offender's motivation for the index offence (particularly in cases of sexual offenders) should be addressed in this context.

4. Performance standards:

4.1 The Contractor must take into account gender, cultural, religious and linguistic differences and be responsive to the special needs of women and Aboriginal People.

4.2 Quality Assurance of Psychological Services:

- a. The Contractor must provide all services in compliance with federal and provincial legislation and standards, provincial and national guidelines, practice standards and CSC Policy/Guidelines including the CSC Mental Health Policy and guidelines.
- b. The Contractor must provide services in accordance with the ethical and professional practice standards of the applicable provincial regulatory body, the Canadian Code of Ethics for Psychologists and relevant legislation guiding the practice of Psychology within correctional settings.
- c. The Contractor is expected to consult with the Project Authority to ensure that all psychological practices are consistent with the relevant and most current legislation, practice standards and policies.
- d. On a yearly basis or as determined by the Project Authority, the Project Authority or designate will review a sample of reports to determine if they meet CSC and professional standards for psychological reports. If a report is judged to be substandard, the Contractor must amend the report as requested at no extra cost to the Crown. The amendment must be completed and the amended report submitted to the Project Authority within one (1) week following the date when the amendment was requested.
- e. Timeliness of the submission of all reports will be monitored on an ongoing basis by the Project Authority. Timeliness will form part of the assessment of the Contractor's work.

4.3 The following is a list of key relevant legislation and CSC Policy/Guidelines but should not be considered an exhaustive list. CSC's policies and guidelines can be found on the CSC internet website at www.CSC-SCC.GC.ca or available in hard copy.

- Corrections and Conditional Release Act - Section 85 Health Care

4.4 Documentation on CSC health care records:

- a. The Contractor must document all information relevant to the mental health services provided in compliance with relevant legislation, professional standards of practice and CSC's Documentation for Health Services Professionals guidelines.
- b. The Contractor must provide this documentation to the Project Authority or delegate using approved electronic media or methods for placement in the offender's psychology file and, at the request of the Project Authority, the Offender Management System (OMS). Placement of reports on the psychology file and in OMS will normally be carried out by CSC staff. However, the Project Authority may, at his/her sole discretion, request that the Contractor place reports in the offenders' psychology file and OMS.
- c. As an accountability and quality assurance measure, the Project Authority will periodically review the Contractor's documentation for compliance with contract requirements, consistency and completeness.

4.5 Limits of Confidentiality

- a. Most psychological reports will be available to anyone with access to the Offender Management System (OMS), on a need to know basis. As the limits of confidentiality are broad, policy, before interviewing the offender, the Contractor must ensure that the limits to confidentiality have been communicated and that the offender has consented - in writing - to the assessment and/or counselling process.
- b. In community settings, the Contractor must advise offenders of the Contractor's responsibility to report breaches of the law [such as illicit drug use] or violations of release conditions if they become known to the Contractor.
- c. Contractors must use CSC Form 4000-18: Consent to Participate In / Receive Health Services for all cases and ensure that the form, signed by the offender and a witness, is included with all reports. (The Project Authority will supply copies of this form to the Contractor upon request). The Contractor must document the consent process in all reports by the Contractor.
- d. Relative to the assessment of risk, in the event that the offender refuses to provide consent, the Project Authority may request that Contractor complete the risk assessment process using all available information.

4.6 Information Sharing – Psychology Reports

- a. Unless pre-arranged with the Project Authority, the Contractor must share all reports that are written for Case Management purposes (including for the Parole Board of Canada) and/or those that contribute to decision-making with the offender by the author of the report. Correctional Service Canada policy specifies that the author and offender sign and date the report at the time that the report is shared. The Contractor must advise the Project Authority if he/she is unable to share the reports and coordinate signatures with

the offender. At the discretion and prior approval of the Project Authority, CSC will assume the information sharing and offender signature responsibility.

- b. In community settings, should the "wait for the offender's signature" compromise the timeliness of the report, the Contractor may forward a dated, hard copy of the report with only the Contractor's signature, provided that a hard copy, signed and dated by both the offender and the Contractor is submitted as soon as possible. In the event that the offender is temporarily detained, unlawfully at large, or has had his/her parole revoked, the Project Authority will assume the information sharing and offender signature responsibility. The Contractor must advise the Project Authority if he/she is unable to share the reports and coordinate signatures with the offender. At the discretion and prior approval of the Project Authority, CSC will assume the information sharing and offender signature responsibility.
- c. The Contractor must submit all reports in type written format. The Contractor must send a signed hard copy of reports along with an electronic copy via Canada Post EPost Connect service or an encrypted e-mail to Correctional Service Canada staff designated by the Project Authority. Electronic copies are required for uploading to the OMS.
- d. Completed psychological reports are to be signed by the Contractor, a psychologist registered for autonomous practice with adults in the province of practice. The Contractor assumes all responsibility for report content.
- e. If amendments to reports are requested by the Project Authority, the Contractor will respond to these requests and make amendments to the report as necessary within one (1) week of notification. If the request for an amendment originates with the offender, the institution will facilitate contact between the offender and the Contractor by phone as necessary. However, should the Project Authority determine that the situation requires direct intervention by the Contractor, the Contractor will arrange to interview the offender in person at the institution.

4.7 Handling and Safeguarding CSC Sensitive or Protected Information

With the prior approval of the Project Authority, the Contractor may be allowed to produce or store sensitive or protected information or data, including paper copies of original reports (see article 3 above), at his/her business location and on its IT systems. The Contractor must ensure that any CSC information and/or documents in his/her keeping are handled, transported and stored in accordance with the security and protection of personal information requirements of the contract.

5. Tasks:

- 5.1 The Contractor must provide mental health services to offenders, as requested by the Project Authority, in accordance with the National Essential Health Services Framework including any amendment to this Framework issued by CSC during the contract period and any optional period if and when exercised by CSC.

- d. Prepare and submit psychological assessment and other reports as requested by the Project Authority.

5.2 Mental Health Counselling and/or Assessment Process in Community Sites

- a. Upon receipt of a referral to perform an evaluation for treatment, the Contractor is authorized a maximum of three (3) billable hours for an assessment to determine the offender's suitability for treatment. This three hour maximum is to cover a file review, an assessment interview(s) with the offender, and the time required to prepare a brief Treatment Plan report specific to the individual offender.;
- b. The Treatment Plan must include the following as a minimum:
 - i. Tombstone Data;
 - ii. Relevant Background;
 - iii. Offender Presentation;
 - iv. Current Mental Health Status;

 - ix. Risk Management Recommendations.

- c. The Contractor must respond to a routine referral within ten (10) working days; the Contractor must respond to an urgent referral within five (5) working days. The Project Authority will advise the contractor when a referral is urgent. If treatment is not appropriate, the Contractor must send a signed letter summarizing the assessment and briefly outlining the reasons why treatment is not appropriate. The Contractor must submit this signed letter no later than three (3) weeks after the first Evaluation for Treatment Session.

This letter is billable up to a maximum of one (1) billable hour.

- d. Upon submission of a Treatment Plan, the Project Authority or designate will authorize Contractor to proceed with a maximum of up to eight (8) treatment sessions. After the eighth (8th) session, the Contractor must submit an interim treatment report on the offender's status to communicate to the Case Management Team an updated evaluation of the offender's current emotional/behavioural status, including a brief assessment of risk to reoffend (outlining static and dynamic risk factors), and the offender's progress toward the current treatment objectives. The Contractor must submit interim treatment reports in writing after every eighth (8th) session, and the authorized 8 treatment sessions must be completed within 4 months from the approval date.

This letter is billable up to a maximum of one (1) billable hour.

- e. Prior to the last authorized session (the 8th session if eight sessions were authorized), the Contractor must contact the Project Authority and seek authorization for an additional eight (8) sessions, if applicable, when submitting the interim report. The Project Authority, Case Management and mental health staff (if available) will review submitted case documentation and make a decision whether to continue treatment on the basis of all input in consultation with the Project Authority. At the discretion of the Project Authority, the Contractor may attend via teleconference where feasible. Barring operational difficulties, if there is a supportive assessment and the Contractor believes it appropriate, the Project Authority may authorize further treatment. The decision to continue treatment

will be based on clinical and risk factors, but the final decision remains with the Project Authority. Each subsequent block of eight (8) treatment sessions (maximum) will be preceded by mandatory contact from the Contractor notifying that the eight (8) sessions have been reached. Then a formal or informal case review will be carried out prior to further treatment authorization being given by the Project Authority or designate. To avoid disruption in service, the Project Authority or designate may provide treatment authorization via EPost. Unauthorized treatment sessions will not be remunerated.

These case reviews are billable at a maximum of one (1) billable hour;

- f. At the Project Authority's or designate's request, the Contractor must provide feedback and consultation to the Parole Officer, Parole Officer Supervisor or the Mental Health Team via brief informal telephone contact, case review meetings, or individual case conferences. Brief informal telephone contacts are not billable;
- g. In addition to the Case Review, circumstances may demand that a case conference be held. The Project Authority will decide whether a formal or informal case conference will be held, and will advise the Contractor. A case conference may be held with or without the offender being present, as determined by the Case Management and Mental Health Teams, in consultation with the Contractor. A case conference will involve the Contractor, Parole Officer, Parole Officer Supervisor, Project Authority and/or the Mental Health team. Upon prior approval by the Project Authority, the Case Management Team will be responsible for scheduling the case conference. Formal case conferences will be billed at a maximum of one (1) billable hour. If immediate notification is made by telephone, the Contractor must follow up within twenty-four (24) hours by faxing written notification to the Parole Officer using the Psychological Counseling: Communication Form found in Attachment 1. This service is not billable.
- i. Occasionally, the Project Authority or designate may request that the Contractor produce a special report (e.g., an updated assessment of risk or any new relevant information) for Case Management or Parole Board of Canada purposes. These reports should be based on an interview(s) with the offender, a file review, and consultation with CSC personnel regarding the offenders' behaviour as requested. The specific tests used and/or administered by the Contractor must include the file based General Statistical Instrument in Recidivism - Revised (GSIR-R) (this does not apply to Aboriginal and Women offenders), and upon request of the Project Authority at least one other clinician rated actuarial measure measuring risk and needs that has been shown to be reliable and valid for use with offender populations according to published work. The Contractor must also provide an estimate of dynamic risk in all special reports. When a clinician rated instrument and/or other psychometric instruments are used, these reports are billable to a maximum of four (4) billable hours. When no clinical rated instrument or other psychometric instruments are used and only GSIR-R is interpreted along with an estimate of dynamic risk, these reports are billable to a maximum of two (2) hours. Any testing/assessment not authorized in advance will not be remunerated. Unless pre-arranged with the Project Authority, these reports are due within four (4) weeks after the interview date of the offender. In some instances, reports may be requested sooner from the contractor, but this will be done on mutual consent;

- j. On termination of treatment (including, but not limited to formal discharge, transfer to another District, revocation, etc.) the Contractor must submit a Final Treatment Report within ten (10) working days after the offender is discharged. The Final Treatment Report is billable up to a maximum of one (1) billable hour;
- k. Termination of treatment may occur at any time the Contractor deems that the offender is not benefiting from counseling. The Contractor may recommend discharging the offender after consulting with the Project Authority, Community Chief Psychologist, other delegated psychologist / Parole Officer Supervisor. Upon approval by the Project Authority or designate of the termination of treatment, the Contractor must complete a Final Treatment Report within two (2) weeks of the termination date;
- l. Correctional Service Canada offenders undergo several batteries of vocational, educational, and psychological tests at various periods of their incarceration, and prior to being released into the community. The results of these tests are available to the Contractor. Given this, the Contractor may recommend additional testing to complete the Assessment for Treatment. The Project Authority must authorize any additional testing in writing before the Contractor proceeds. The Contractor must submit to a brief treatment rationale for the testing, list naming the tests to be administered, and the total cost preparing a vocational, educational, and/or other psychological assessment the Project Authority. Any testing/assessment not authorized in advance will not be remunerated. These reports will be billable as Special Reports and have a maximum of four (4) billable hours allowable in total and are due with four (4) weeks of referral unless otherwise requested and/or arranged with the Project Authority;
- m. If an offender fails to attend a scheduled appointment without giving 24 hours notice, the Contractor must report the occurrence by fax or encrypted e-mail (see attachment 2 - Missed Appointment Form) within one (1) business day of the missed appointment. Should the offender display a pattern of cancelling more than one appointment, the Contractor must report this pattern to the Project Authority within five (5) days of the second rescheduled appointment. The Contractor can bill a fee of fifty (50) percent of a billable hour for the first missed appointment. For the second missed appointment, the Contractor can bill a fee of twenty-five (25) percent of a billable hour. The third missed appointment is not billable. The Contractor must notify the Project Authority of the missed appointment(s) within one (1) business day in order to request any compensation for missed appointments.
- n. The Contractor must maintain individualized attendance sheets (see attachment 2 - Psychological Counseling - Offender Attendance Confirmation Sheet) for all of his/her cases. Invoices must be accompanied by signed attendance sheets.

ANNEX D – Evaluation Criteria

1.0 Technical Evaluation:

1.1 The following elements of the proposal will be evaluated and scored in accordance with the following evaluation criteria.

- Mandatory Technical Criteria

It is imperative that the proposal address each of these criteria to demonstrate that the requirements are met.

- 1.2 LISTING EXPERIENCE WITHOUT PROVIDING ANY SUBSTANTIATING DATA TO SUPPORT WHERE, WHEN AND HOW SUCH EXPERIENCE WAS OBTAINED WILL RESULT IN THE STATED EXPERIENCE NOT BEING CONSIDERED FOR EVALUATION PURPOSES.
- 1.3 All experience must be strictly work-related. Time spent during education and/or training will not be considered, unless otherwise indicated.
- 1.4 Experience must be demonstrated through a history of past projects, either completed or on-going.
- 1.5 References must be provided for each project/employment experience.
 - I. Where the stated experience was acquired within a Canadian Federal Government Department or Agency **as a Public Servant**, the reference must be a Public Servant who had a supervisory role over the proposed resource during the stated employment.
 - II. Where the stated experience was acquired within a Canadian Federal Government Department or Agency **as a consultant**, the reference must be the Public Servant who was identified as the Project Authority of the project on which the proposed resource acquired the experience.
 - III. References must be presented in this format:
 - a. Name;
 - b. Organization;
 - c. Current Phone Number; and
 - d. Email address if available

1.6 Response Format

- I. In order to facilitate evaluation of proposals, it is recommended that bidders' proposals address the mandatory criteria in the order in which they appear in the Evaluation Criteria and using the numbering outlined.
- II. Bidders are also advised that the month(s) of experience listed for a project or experience whose timeframe overlaps that of another referenced project or experience will only be counted once. For example: Project 1 timeframe is July 2001 to December 2001; Project 2 timeframe is October 2001 to January 2002; the total months of experience for these two project references is seven (7) months.
- III. For any requirements that specify a particular time period (e.g., 2 years) of work experience, CSC will disregard any information about experience if the technical bid does not include the required month and year for the start date and end date of the experience claimed.

IV. CSC will also only evaluate the duration that the resource actually worked on a project or projects (from the start date to end date), instead of the overall start and end date of a project or a combination of projects in which a resource has participated.

1. Background / Contexte

Correctional Service Canada (CSC) is mandated, under the Corrections and Conditional Release Act (CCRA), to “provide every inmate with essential health care and reasonable access to non essential mental health care”

The Commissioner’s Directives 800 Health Services and its associated guidelines are the key references on essential health services (Clinical services, mental health and public health services).

The mission of Health Services is to provide offenders with efficient and effective health services that ***encourage individual responsibility, promote healthy reintegration and contribute to safe communities.***

Health care services must respect gender, cultural, religious and linguistic differences, and be responsive to the special needs of women, Aboriginal peoples, persons requiring mental health care and other groups.

In order to support inmates in taking responsibility for proactively safeguarding their health, CSC provides:

- information and education on health promotion and disease prevention
- direct health care services

Le Service correctionnel Canada (SCC) est tenu, aux termes de la *Loi sur le système correctionnel et la mise en liberté sous condition*, de veiller « à ce que chaque détenu reçoive les soins de santé essentiels et qu’il ait accès, dans la mesure du possible aux soins qui peuvent faciliter sa réadaptation et sa réinsertion sociale ».

Les directives du commissaire de la série 800 – Services de santé et les lignes directrices connexes constituent les principaux documents de référence sur les services de santé essentiels (services cliniques, santé mentale et santé publique).

La mission des Services de santé est de fournir aux délinquants des services de santé efficaces et efficaces ***qui permettent de promouvoir la responsabilité individuelle, favoriser la saine réinsertion sociale et contribuer à la sécurité des collectivités.***

Les Services de santé doivent respecter les différences entre les sexes, les cultures et les groupes linguistiques et tenir compte des besoins propres aux femmes, aux personnes Autochtones, aux personnes nécessitant des soins en santé mentale et d’autres groupes.

Pour aider les détenus à assumer leurs responsabilités afin qu’ils prennent des mesures proactives pour protéger leur santé, le SCC fournit :

- de l’information et de la formation sur la promotion de la santé et la prévention des maladies;
- des soins de santé directs.

Health Services are provided in ambulatory Health Care Centres in institutions, regional hospitals and regional treatment / psychiatric centres. Inmates may have to go to the community for emergency services, specialized health care services and for hospitalization that cannot be accommodated in CSC's regional hospitals. In CSC, health care is provided by a wide range of regulated and non-regulated health professionals.

Les services de santé sont fournis dans les centres de soins ambulatoires à l'intérieur des établissements, dans les hôpitaux régionaux et dans les centres de traitement / psychiatriques régionaux. Il est possible que les détenus doivent se rendre dans la collectivité pour y recevoir des soins d'urgence, des soins spécialisés ou pour y être hospitalisés, lorsque cela est impossible dans un hôpital régional du SCC. Au SCC, les soins de santé sont dispensés par des professionnels de la santé réglementés et non réglementés.

In broad terms, health care means medical, dental, mental health care and public health services. During the period of incarceration, inmates are provided with a range of coordinated health services that are accessible, affordable, and appropriate to the correctional environment.

En termes généraux, les soins de santé comprennent les soins médicaux, dentaires, les soins de santé mentale et les services de santé publique. Pendant la durée de leur incarcération, les détenus ont droit à tout un éventail de services de santé coordonnés qui sont accessibles, abordables et adaptés au milieu correctionnel.

Within CSC the comprehensive health services provided to inmates are categorized into three (non mutually exclusive) service streams: clinical services, mental health services and public health services. Clinical Services refers to assessment, diagnosis and treatment of acute and chronic physical illnesses. Mental health care includes assessment, intervention, treatment and support services and discharge planning provided to inmates with significant mental health needs.

Au sein du SCC, les services de santé complets offerts aux détenus sont administrés selon trois catégories : les services cliniques, la santé mentale et la santé publique. Les services cliniques visent le dépistage, le diagnostic et le traitement des maladies aiguës ou chroniques. Les soins de santé mentale comprennent le dépistage, l'intervention, le traitement et les services de soutien ainsi que la planification de la continuité des soins offerts aux détenus qui ont des besoins importants.

<p>The purpose of this Framework and the National Formulary is the promotion of quality and consistency in health services across the country, and allows CSC to make decisions based on monitoring and analyzing the effectiveness and efficiency of essential health services.</p>	<p>Le but de ce Cadre et le Formulaire national est de promouvoir la qualité et l'uniformité des services de soins de santé à travers le pays et il permet au SCC de prendre des décisions fondées sur la surveillance et l'analyse de l'efficacité et de l'efficience des services de santé essentiels.</p>

2. CSC National Advisory Committee on Essential Health Services / Comité consultatif national sur les services de santé essentiels du SCC

A National Advisory Committee on Essential Health Services was established in 2009 to provide an effective ongoing oversight mechanism to ensure accountability, consistency, cost effectiveness and best practices specific to the needs of CSC's population. This committee makes recommendations on changes to the National Essential Health Services Framework to the Health Services Executive Team (HSET) for approval.

Un Comité consultatif national sur les services de santé essentiels a été mis sur pied en 2009 afin de fournir un mécanisme de surveillance continue pour assurer la responsabilisation, l'uniformité, la rentabilité et l'établissement de pratiques exemplaires propres aux besoins de la population du SCC. Ce comité apporte des recommandations sur les changements au Cadre national relatif aux soins de santé essentiels à l'équipe exécutive des Services de santé pour approbation.

Health Services is currently in the process of establishing a National Medical Advisory Committee. Starting in 2018-2019, this committee will assume the role of providing advice to the HSET on changes to the National Essential Health Services Framework.

Les Services de santé sont actuellement dans le processus d'établir un Comité consultatif national sur les soins médicaux. En 2018-2019, ce comité assumera le rôle de fournir des conseils à l'équipe exécutive des Services de santé sur les changements au Cadre national relatif aux soins de santé essentiels.

3. Access to Essential Health Services / Accès aux services de santé essentiels

There are several ways that health services may be accessed. Inmates may initiate access by submitting, in confidence, a request for health services (clinical services, mental health, public health), and indicating the reason for the request. Inmate requests are reviewed, prioritized according to urgency, and services are provided by a health care provider.

Il y a plusieurs voies d'accès aux services de santé. Les détenus peuvent présenter, à titre confidentiel, une demande de services de santé (services cliniques, santé mentale, santé publique) en précisant le motif de leur demande. Ces demandes sont examinées et classées par ordre de priorité en fonction de leur niveau d'urgence. Un fournisseur de soins de santé dispense ensuite des services au détenu.

An inmate may also be referred to Health Services by any staff in the institution.

Un détenu peut aussi être aiguillé vers les Services de santé à la demande d'un membre du personnel de l'établissement.

<p>Correctional Service Canada National Essential Health Services Framework</p>	<p>Service correctionnel Canada Cadre national relatif aux soins de santé essentiels</p>
---	--

Some Health Care Centers have "drop in hours" where inmates can be seen by showing up at the Centre. Visits with Physicians/Specialists (including Psychiatrists) and other health care professionals are pre-booked according to need and institutional operational requirements. When inmates are referred to community medical/psychiatric services they are subject to the same waiting periods as community members. **The use of private clinics for the provision of essential health services is not permitted in CSC. Accessing community services is also subject to the operational requirements of the institution.**

Certains centres de services de santé ont des heures de cliniques sans rendez-vous durant lesquelles les détenus peuvent être vus lorsqu'ils se présentent au centre de santé. Les rendez-vous avec des médecins ou des spécialistes (y compris des psychiatres) sont pris à l'avance en fonction des besoins et des exigences opérationnelles de l'établissement. Lorsque des détenus sont aiguillés vers des services médicaux/psychiatriques à l'extérieur des établissements, ils sont assujettis au même délai d'attente que les membres de la collectivité. **Le recours aux cliniques privées pour l'obtention de services de santé essentiels n'est pas permis au SCC. L'accès aux services offerts dans la collectivité est également en fonction des exigences opérationnelles de l'établissement.**

Provincial/Territorial Identification Cards

As part of the discharge/release planning, the Institutional Parole Officer is responsible for assisting the offender in obtaining Provincial/Territorial Identification such as Birth Certificate, Health Insurance, Disability Benefits, Social Insurance Number etc in the province of release.

Community Correctional Centres (CCC)

Offenders in CCC's are entitled to receive provincial Health Insurance and Disability Benefits consistent with the criteria applicable to others residing in the Province/Territory. Community Residential Facilities (CRF)

In exceptional circumstances, where there is a documented public safety interest, with the approval of the Regional Director Health Services (RDHS), CSC will provide, on an interim basis, essential health services to address gaps, or delays, in provincial health services coverage.

Reducing/Removing barriers to Provincial Health Insurance and Disability Benefits

The RDHS is responsible for communicating with provincial and territorial partners to assist in reducing/removing barriers to offenders obtaining full entitlement to Health Insurance and Disability Benefits.

Centres correctionnels communautaires

Les délinquants dans les Centres correctionnels communautaires sont admissibles à l'assurance-maladie provincial ainsi qu'aux prestations d'invalidité en accord avec les critères applicables aux autres résidents de la province/territoire. Par contre, afin d'assurer la sécurité du public là où il existe des lacunes, ou des retards, dans la prestation des soins de santé provinciaux, le SCC fournira, sur une base intérimaire, des services de santé essentiels aux délinquants qui résident dans des centres correctionnels communautaires.

Centres résidentiels communautaires (CRC)

Dans les circonstances exceptionnelles, lorsqu'un intérêt à la sécurité du public est documenté, suite à l'approbation du Directeur régional des Services de santé, le SCC fournira, sur une base intérimaire, des services de santé essentiels afin d'adresser les lacunes, ou des retards, dans la prestation des soins de santé provinciaux.

Incarceration presents an important public health opportunity to promote and protect the health of a population with a high comorbidity of diseases at high risk of contracting and spreading infectious diseases.

Sur le plan de la santé publique, l'incarcération est une occasion de favoriser et de protéger la santé d'une population ayant un taux de comorbidité élevé, ainsi qu'un risque élevé de contracter et de propager des maladies infectieuses.

	Without required identification only a temporary health card is issued, usually for 1 month. In some provinces, no temporary health card will be issued if one cannot prove citizenship.		Sans les renseignements requis pour établir leur identité, ces personnes peuvent uniquement obtenir une carte santé temporaire, laquelle est généralement valide pour une période d'un mois. Qui plus est, certaines provinces refusent même d'octroyer une carte santé temporaire aux personnes qui ne sont pas en mesure de présenter une preuve de leur citoyenneté.

Prestations d'invalidité provinciales

Appendix G. Provincial Disability Benefits / Annexe G. Prestations d'invalidité provinciales			
	Overview of Access to Provincial Disability Benefits		Aperçu de l'accès aux prestations d'invalidité provinciales
	<p>All provinces require a medical assessment to be completed by a physician, and these are generally completed by psychiatrists for CSC clients. This is important to note because in many cases, provincial disability will not accept medical assessments completed by institutional physicians or by out-of-province physicians. For offenders who are released to another province, this creates difficulties if no physicians/psychiatrists are available or if offenders are forced to rely on walk-in clinics.</p>		<p>Dans toutes les provinces, les autorités exigent qu'un médecin procède à une évaluation médicale, laquelle est généralement réalisée par un psychiatre chez les délinquants relevant du Service correctionnel du Canada (SCC). Il s'agit là d'une réalité qu'il importe de souligner, puisque dans de nombreux cas, les responsables des régimes provinciaux de prestations d'invalidité n'acceptent pas les évaluations médicales produites par le médecin d'un établissement ou par un médecin établi à l'extérieur de la province en cause. Cette pratique cause des problèmes aux délinquants qui sont mis en liberté dans une province autre que celle où ils étaient incarcérés, d'autant plus que s'ils n'ont accès à aucun médecin ou psychiatre, ces délinquants sont contraints de se rendre dans une clinique sans rendez-vous.</p>
	<p>The use of walk-in clinics is troublesome because many walk-in general practitioners are hesitant to complete medical disability forms for patients they are not familiar with.</p>		<p>Le recours aux cliniques sans rendez-vous pose toutefois problème, puisque les omnipraticiens qui y travaillent sont réticents à produire un certificat médical d'invalidité pour des patients qu'ils ne connaissent pas.</p>

	<p>The aging offender population, 60 and over, will receive drug benefits through federal programs such as federal drug benefits, Old Age Income Support and Canada Pension.</p>		<p>La population vieillissante de délinquants (les 60 ans et plus) recevra des prestations d'assurance médicaments au moyen de programmes fédéraux, notamment les programmes fédéraux d'assurance médicaments, les programmes de soutien du revenu offerts aux personnes âgées et le Régime de pensions du Canada.</p>
	<p>The disability benefits application process presents a significant barrier to offenders with disabilities who are moving from Day Parole to Full Parole. They are not eligible to apply for assistance of any kind until they are no longer in CRFs, and they are unlikely to be granted Full Parole if they do not have a solid financial plan.</p>		<p>Le processus de demande de prestations d'invalidité constitue un obstacle majeur pour les délinquants handicapés qui passent de la semi-liberté à la libération conditionnelle totale. En effet, ces délinquants ne sont admissibles à aucune forme d'assistance tant et aussi longtemps qu'ils résident dans un centre résidentiel communautaire (CRC) et ils ont peu de chance d'obtenir une libération conditionnelle totale s'ils ne disposent pas d'un plan financier fiable.</p>
