This requirement also includes the supply and delivery of related materials to the Canadian Welding Bureau (CWB) certified fabrication shop at the Shoal Point base in Victoria BC.

The period of the SA is from date of issuance to 30 September 2024.

### 1.3 Debriefings

Suppliers may request a debriefing on the results of the request for supply arrangements process. Suppliers should make the request to the Supply Arrangement Authority within 15 working days of receipt of the results of the request for supply arrangements process. The debriefing may be in writing, by telephone or in person.

### 1.4 Use of an e-Procurement Solution (EPS)

Canada is currently developing an online EPS for faster and more convenient ordering of goods and services. In support of the anticipated transition to this system and how it may impact any resulting Supply Arrangement that is issued under this solicitation, refer to 6.12 Transition to an e-Procurement Solution (EPS).

The Government of Canada's press release provides additional information.

## PART 2 - SUPPLIER INSTRUCTIONS

### 2.1 Standard Instructions, Clauses and Conditions

All instructions, clauses and conditions identified in the Request for Supply Arrangements (RFSA) by number, date and title are set out in the Standard Acquisition Clauses and Conditions Manual <https://buyandsell.gc.ca/policy-and-guidelines/standard-acquisition-clauses-and-conditions-manual> issued by Public Works and Government Services Canada.

Suppliers who submit an arrangement agree to be bound by the instructions, clauses and conditions of the RFSA and accept the clauses and conditions of the Supply Arrangement and resulting contract(s).

The 2008 (2020-05-28) Standard Instructions - Request for Supply Arrangements - Goods or Services, are incorporated by reference into and form part of the RFSA.

### 2.2 Submission of Arrangements

Arrangements must be submitted only to the Public Works and Government Services Canada (PWGSC) Bid Receiving Unit specified below by the date and time indicated on page 1 of the RFSA:

PWGSC Pacific Region Bid Receiving Unit:

Only arrangements submitted using epost Connect service will be accepted. The Supplier must send an email requesting to open an epost Connect conversation to the following address:  
[TPSGC.RPRReceptiondessoumissions-PRBidReceiving.PWGSC@tpsgc-pwgsc.gc.ca](mailto:TPSGC.RPRReceptiondessoumissions-PRBidReceiving.PWGSC@tpsgc-pwgsc.gc.ca)

NOTE: Arrangements will not be accepted if emailed directly to this email address. This email address is to be used to open an epost Connect conversation, as detailed in Standard Instructions 2008, or to send arrangements through an epost Connect message if the Supplier is using its own licensing agreement for epost Connect.

It is the Supplier's responsibility to ensure the request for opening an epost Connect conversation is sent to the email address above at least six days before the Request for Supply Arrangements closing date.

Transmission of arrangements by facsimile or hardcopy to PWGSC will not be accepted.

### 2.3 Federal Contractors Program for Employment Equity - Notification

The Federal Contractors Program (FCP) for employment equity requires that some contractors make a formal commitment to Employment and Social Development Canada (ESDC) - Labour to implement employment equity. In the event that this Supply Arrangement would lead to a contract subject to the Federal Contractors Program (FCP) for employment equity, the bid solicitation and resulting contract templates would include such specific requirements. Further information on the Federal Contractors Program (FCP) for employment equity can be found on Employment and Social Development Canada (ESDC) - Labour's website.

### 2.4 Enquiries - Request for Supply Arrangements

All enquiries must be submitted in writing to the Supply Arrangement Authority no later than 10 calendar days before the Request for Supply Arrangements (RFSA) closing date. Enquiries received after that time may not be answered.

Suppliers should reference as accurately as possible the numbered item of the RFSA to which the enquiry relates. Care should be taken by Suppliers to explain each question in sufficient detail in order to enable Canada to provide an accurate answer. Technical enquiries that are of a proprietary nature must be clearly marked "proprietary" at each relevant item. Items identified as "proprietary" will be treated as such except where Canada determines that the enquiry is not of a proprietary nature. Canada may edit the question(s) or may request that Suppliers do so, so that the proprietary nature of the question(s) is

eliminated, and the enquiry can be answered to all Suppliers. Enquiries not submitted in a form that can be distributed to all Suppliers may not be answered by Canada.

## 2.5 Applicable Laws

The Supply Arrangement (SA) and any contract awarded under the SA must be interpreted and governed, and the relations between the parties determined, by the laws in force in British Columbia.

Suppliers may, at their discretion, substitute the applicable laws of a Canadian province or territory of their choice without affecting the validity of the arrangement, by deleting the name of the Canadian province or territory specified and inserting the name of the Canadian province or territory of their choice. If no change is made, it acknowledges that the applicable laws specified are acceptable to the Suppliers.

## 2.6 Bid Challenge and Recourse Mechanisms

- (a) Several mechanisms are available to potential suppliers to challenge aspects of the procurement process up to and including contract award.
- (b) Canada encourages suppliers to first bring their concerns to the attention of the Contracting Authority. Canada's Buy and Sell website, under the heading "Bid Challenge and Recourse Mechanisms" contains information on potential complaint bodies such as:
  - Office of the Procurement Ombudsman (OPO)
  - Canadian International Trade Tribunal (CITT)
- (c) Suppliers should note that there are strict deadlines for filing complaints, and the time periods vary depending on the complaint body in question. Suppliers should therefore act quickly when they want to challenge any aspect of the procurement process.

ANNEX "A" - REQUIREMENT
-------------------------

TITLE: Aluminum Structural Sections

FOR: Oceans Protection Plan

CLIENT DEPARTMENT: Fisheries and Oceans Canada,  
Canadian Coast Guard,  
Maritime and Civil Infrastructure

#### 1.0 OBJECTIVE

The Canadian Coast Guard (CCG) requires Aluminum Structural Sections to support the fabrication and installation by CCG of Marine Communications and Traffic Services (MCTS) equipment under the federal government's Ocean Protection Plan (OPP). The initial requirement is for aluminum structural sections and plate that CCG will weld and fabricate into new Marine Communications and Traffic Services (MCTS) buildings at Mount Gil, Denny Island, Safety Mountain, and Mount Collinson to improve radar coverage on the BC coast. This project will involve supply of materials to support the Coast Guard's own Canadian Welding Bureau (CWB) certified fabrication shop at the Shoal Point base in Victoria BC.

The period of the supply arrangement is from date of issuance to September 30, 2024.

#### 2.0 BACKGROUND

Under the OPP, Mount Gil, Denny Island, Safety Mountain, and Mount Collinson were identified as new radar sites that could provide greater reliability and improved radar coverage in BC waterways. Each site will have buildings fabricated by CCG welders and fabricators, and these buildings will house the radio and microwave communications equipment as well as diesel generators and fuel storage tanks.

#### 3.0 SCOPE OF WORK

The Canadian Coast Guard requires the supply of structural aluminum sections during the period of the Supply Arrangement (SA) and in accordance with the minimum mandatory performance specifications detailed in each Request for Proposal issued against the SA.

#### MANDATORY TECHNICAL REQUIREMENTS OF SUPPLY ARRANGEMENT ARE:

4. Mill Reports must be made available upon request;
5. Products must be prime metal, no seconds;
6. Itemized packing slip must accompany each shipment.

It is estimated that two buildings will be built each year. Actual usage will vary and may include items not listed but will consist of only aluminum fabricated products.

Due to the quantity of materials and limited CCG storage facilities, it is anticipated that CCG will require materials for each building in stages as fabrication progresses.

The section properties are referenced by designation. Lists of dimensions and section properties for the specific geometric shapes are referenced from the Aluminum Association, Aluminum Design Manual 2015.

The material properties and alloy-temper specifications are referenced to the ASTM standards B221M -13 Standard Specification for Aluminum and Aluminum-Alloy Extruded Bars, Rods, Wire, Profiles, and Tubes (Metric) and B209M-14 Standard Specification for Aluminum and Aluminum-Alloy Sheet and Plate (Metric)

The following table is a sample of products that make up one building. The estimated quantities are for each building.
