SECTION 1 – INTRODUCTION

The purpose of this section is to provide general information about the International Development Research Centre (“IDRC” or “Centre”) and this RFP.

1.1 IDRC OVERVIEW

IDRC was established by an act of Canada’s parliament in 1970 with a mandate “to initiate, encourage, support, and conduct research into the problems of the developing regions of the world and into the means for applying and adapting scientific, technical, and other knowledge to the economic and social advancement of those regions.” A **Canadian Crown corporation**, IDRC supports leading thinkers who advance knowledge and solve practical development problems. IDRC provide the resources, advice, and training they need to implement and share their solutions with those who need them most. In short, IDRC increases opportunities — and makes a real difference in people’s lives. Working with development partners, IDRC multiplies the impact of investment and brings innovations to more people in more countries around the world. IDRC offers fellowships and awards to nurture a new generation of development leaders. IDRC employs about **375** people at the **head office** located in Ottawa, Canada and in **five (5) regional offices** located in New Delhi-India, Montevideo-Uruguay, Amman-Jordan, Nairobi-Kenya, and Dakar-Senegal. IDRC is governed by a board of up to 14 governors, whose chairperson reports to Parliament through the Minister of International Development. For more details visit: www.idrc.ca

1.2 PURPOSE OF THIS RFP

SECTION 2 – STATEMENT OF WORK

This section is intended to provide Proponents with the information necessary to develop a competitive proposal. The Statement of Work (“SOW”) is a complete description of the tasks to be done, results to be achieved, and/or the goods to be supplied.

2.1 INTRODUCTION AND PROJECT OVERVIEW

The Economics of Tobacco Control (ETC) Research Initiative is a five-year 6,879,189 CAD partnership between the International Development Research Centre (IDRC) and Cancer Research UK (CRUK) for addressing the health and development challenges posed by tobacco use in low- and middle-income countries (LMICs). The initiative started in September 2017 and will end September 2022. This partnership supports research for articulating an evidence-based, economic rationale for the prevention of tobacco-related diseases, and to encourage the use of rigorous research evidence by policymakers across Asia, Latin America and the Caribbean, Middle-East-and-North-Africa, and Sub-Saharan Africa. By supporting collaborative research that provides the economic rationale for tobacco control in LMICs, the Initiative will encourage and help disseminate the robust local evidence acutely needed to better inform and implement solutions for effective tobacco control.

Specifically, the economic focus of this program is geared for impact at scale across at least 18 countries by strengthening the evidence base for how taxes are an effective and pro-poor means of reducing tobacco smoking prevalence. This directly contributes to target 3.A of the Sustainable Development Goals adopted by the United Nations in 2016, which seeks to strengthen the implementation of the Framework Convention on Tobacco Control (FCTC) by member states.

Aims and objectives of the ETC Research Initiative

The overall goal of the Initiative is to strengthen the capacity of researchers to generate evidence that supports tobacco control policies and implementation in LMICs. Specifically, the Initiative seeks to:

- I. Attract economists and policy research institutions in LMICs with the local knowledge and expertise necessary to work with Ministries of Finance and other governmental actors on unexplored policy relevant tobacco economics questions.
- II. Build multi-disciplinary teams of researchers, knowledge brokers and policy makers in generating economic evidence for action, especially on tobacco taxation and support the development of their capacity to undertake research and communicate research results.
- III. Generate rigorous evidence to demonstrate the opportunity that tobacco control provides for funders and governments to make an impact on public health and the economic empowerment of LMICs.
- IV. Enable countries to implement evidence-based tobacco control solutions that are equitable and adapted to LMIC contexts.
- V. Engage other donors in opportunities to build individual and institutional leadership in the economics of tobacco control.

2.2 DESCRIPTION AND SCOPE OF WORK

2.2.1 Project Scope

In Scope:
Purpose

A consultant/consulting group is being hired to conduct a summative evaluation of the Initiative. The purpose of the evaluation is to assess the overall performance of the Initiative and its value-add in advancing the economics of tobacco control field in LMICs.

Specific Objectives

The specific objectives of the evaluation are:

1. To assess the overall performance of ETC, specifically the extent to which the Initiative did or did not meet its objectives.
2. To evaluate the value added by the Initiative and how the work conducted under the ETC is contributing to advancing the field of the economics of tobacco control in LMICs.
3. To provide accurate, reliable, and useful insights that can inform future partnerships and health-related programming in LMICs.

2.2.2 Evaluation Questions

Key evaluation lines of inquiry can be grouped into two areas: Initiative design and Initiative outcomes. Several critical questions can be explored under each area to assess and understand the achievements of the ETC Research Initiative. We provide a preliminary list of potential questions below, noting that the evaluators will engage in an inception phase in which evaluation questions will be refined (e.g., adding or eliminating questions, adjusting wording, and prioritizing) and finalized through discussions with the primary users.

a. Initiative Design

- What were the pathways to change embedded in the research portfolio design and in each project and how did these play out in each region/thematic area?
- How did the multidisciplinary teams work together and what challenges/opportunities did this approach yield?
- Which approaches were used (by funders and grantees) to respond to unforeseen changes and challenges posed by the pandemic? How did this affect program delivery?

b. Initiative Outcomes

Portfolio level

- Did the program produce its intended results?
- What contributions (intended and unintended) did the portfolio of projects make to influence policy and practice, enhance research capacity, and produce new knowledge?
- How far did teams go in strengthening methods and enquiry in relation to gender and equity considerations? Did the funders have a role in advancing these outcomes?
- Which challenges/wins did the project teams face in terms of mobilizing advocacy efforts for research uptake in policy and practice change? How did the Initiative enabled these wins or helped overcome challenges?
- The portfolio had a mix of grantees with extensive background in tobacco research and grantees who were newer to the topic. Did this strategy help to develop the field and advance tobacco control objectives in the various research settings?

Donor-partnership level

- How did the donor partnership between IDRC and CRUK add value in comparison to individually funded programs?
- What have been the advantages and disadvantages (if any) of the funding partnership for each partnering institution and for grantees?

2.2.3 Methodology

To address the evaluation questions, we expect a multiple-methods approach using qualitative and quantitative methods and diverse data sources. The data collection should be aimed at collecting evidence to address all the evaluation questions and making optimal use of existing data (for ex., project documents produced by the research teams and IDRC internal monitoring reports). The proposed evaluation methodology will be appraised based on its suitability for addressing the evaluation questions.

It is expected that the methodology will include a combination of the elements described below, although proponents are encouraged to propose tailored and strategic approaches that, in their view, would yield the most relevant and accurate findings:

Document Review: To include but not be limited to the review of ETC documents (Research Initiative proposal, Calls for proposals, Committee meeting minutes, project-related documentation and outputs, etc.).

Interviews: Conduct interviews with ETC research teams, relevant IDRC and CRUK staff, and key external stakeholders, such as representatives from collaborating institutions and other stakeholders working in the field of international tobacco control and health-related policies.

Other relevant data collection methods: As examples, surveys are a useful means of soliciting input from a broad range of stakeholders. Analyses of grantees' productivity, collaboration levels and impacts can be added, as well as collection and analyses of data on capacity-strengthening and other relevant sources of data as needed.

In addition to describing the methodological approach, proponents should provide an overview of the limitations of their proposed approach and articulate mitigation strategies.

The Proponent **must** provide detailed information relative to:

2.2.4 Intended Users of the Evaluation

Primary Users:

- IDRC and CRUK Management and Governance Committees – Anticipated uses: To have an external assessment of the overall performance of the ETC Initiative and its value-add in advancing the field of the economics of tobacco control.
- IDRC and CRUK staff – Anticipated use: To learn about the value-add of the IDRC-CRUK partnership and use this learning to inform future partnership development and implementation at IDRC.

Secondary users:

- ETC research teams and partners
- Other external stakeholders, such as research organizations and donors interested in the ETC Research Initiative model and technical content

- Public funders, citizens, and individual donors contributing to IDRC and CRUK's mandates (Canadian and UK governments and citizens, individuals donating to Cancer Research organisations).

Anticipated uses: To have an external assessment of the value-add of the IDRC-CRUK partnership Initiative in advancing the field of the economics of tobacco control and in fulfilling CRUK and IDRC's mandates.

2.2.5 Project Budget

The estimated budget for the evaluation is CAD 90,000 and the duration is seven months. Travel costs are not expected to be included given the timeframe for the evaluation and the current restrictions on travel due to the COVID-19 pandemic. The proponents should include high-level cost estimation breakdown in their proposal.

2.3 RESPONSIBILITIES, SUPPORT, AND REPRESENTATIVES

IDRC

IDRC will identify a **Project Authority** to whom the successful Proponent will report during the period of a resulting Contract. The Project Authority will be responsible for coordinating the overall delivery of service, providing as required direction and guidance to the Proponent, monitoring Proponent performance and accepting and approving Proponent deliverables on behalf of IDRC. The Project Authority will ensure that appropriate subject matter experts from within IDRC are available to the Proponent to discuss and provide content material, as well as facilitate cooperation with regional IDRC staff and other stakeholders, as required.

IDRC will identify a **Contracting Authority**, who will oversee a resulting Contract throughout its lifecycle, in conjunction with the Project Authority and the Proponent, create amendments for any changes to a resulting Contract, and answer questions on terms and conditions.

Consultant

The selected proponents will:

- Produce an evaluation design report and workplan. The evaluation design report should include (at a minimum):
 - A clear articulation of the purpose of the evaluation and intended users
 - The evaluation questions to be addressed
 - The methodology to be implemented, a workplan, including a schedule of outputs delivery dates, and a theoretical framework (cross-listing questions, methods and data sources), which will be shared, discussed with, and approved by IDRC.
- Engage in data collection and analysis as outlined in the evaluation design report and produce an outline of the evaluation report for feedback and approval by IDRC.
- Produce a presentation of preliminary findings to primary users
- Produce a draft evaluation report and submit to IDRC for review and comment. The report should be a maximum of 25 pages (excluding annexes).
- Produce a final evaluation report, including an executive summary of up to three pages. The report should respond to the final agreed-upon evaluation questions and incorporate feedback from IDRC provided on the draft report. The final evaluation report will be a publicly accessible document.

2.4 LOCATION OF WORK AND TRAVEL

Due to the type of Services required, the successful Proponent will be able to work from its own location. IDRC will not provide onsite facilities for the Proponent, other than providing facilities for on-site meetings.

Travel is not expected to be required by the Proponent.

SECTION 3 – PROPOSAL EVALUATION

This section describes the process that IDRC will use to evaluate Proposals and select a Lead Proponent.

3.1 EVALUATION COMMUNICATION

During Proposal evaluations, IDRC reserves the right to contact or meet with any individual Proponent in order to obtain clarification of its submission or to gain insight into the quality and scope of relevant services. A Proponent will not be allowed to add, change, or delete any information during the process. IDRC is in no way obligated to meet with any or all Proponents for this purpose.

3.2 EVALUATION METHODOLOGY

IDRC will use the following methodology to evaluate Proposals:

3.2.1 Step 1 - Mandatory Requirements

Each Proposal will be examined to determine compliance (pass or fail) with all IDRC's **Mandatory Requirements** as set out in **Annex B**. Non-compliant Proposals will receive no further consideration.

Summary Table:

RFP Section	Mandatory Requirements	Pass or Fail
Annex B	Mandatory Requirements in response to the Statement of Work	

3.2.2 Step 2 - Rated Requirements

Compliant Proposals will be evaluated and attributed points according to the degree to which they meet or exceed IDRC's **Rated Requirements** as set out in **Annex C**.

Summary Table:

RFP Section	Rated Requirements	Weighting%	*Points 0-10	Score
		A	B	A x B
Annex C	Team section	30		
"	Methodology section	60		
	Total %	90		

*Points Table:

Points	Points Description
0	Barely addresses any of the stated requirements and completely lacking in critical areas
3	Adequately meets most of the stated requirements. May be lacking in some areas which are not critical
5	Meets most stated requirements
7	Meets all stated requirements
8	Meets all stated requirements and may exceed some
10	Exceeds the stated requirements in superlative and beneficial ways

3.2.3 Step 3 – Interviews

Proponents may be asked to provide additional information prior to the final selection. IDRC reserves the right to supply more information to those Proponents who are shortlisted.

3.2.4 Step 4 - Financials

The Proponent submitting the lowest price will receive the maximum 10 points on the standard evaluation scale of 0-10. All other Proponents will receive a prorated score out of 10 based on the relative proportion of their price to the lowest price submitted.

RFP Section	Rated Requirements	Weighting A	Points 0-10 B	Score A x B
4.6	Total pricing, exclusive of taxes	10		
	Total %	10		

3.2.5. Step 4 - Final Score

Scores for the shortlisted Proponents' proposals will be calculated, and IDRC may select the Lead Proposal achieving the highest total points ("Lead Proponent"), subject to IDRC's reserved rights.

3.3 PROPONENT FINANCIAL CAPACITY

IDRC reserves the right to conduct an assessment of the **Lead Proponent's** financial capacity. IDRC may request that the Lead Proponent provide proof of financial stability via bank references, financial statements, or other similar evidence. This is a pass/fail test. Pass means that Contract discussions begin. Fail means that the Lead Proponent may not enter into Contract discussions and is disqualified from further consideration. The Lead Proponent must provide this information upon 72 hours of IDRC's request; failure to comply may result in disqualification.

Note: In the case of a joint venture or consortium, each and all members of the joint venture or consortium must provide the information required for their legal form.

3.4 PROPONENT SELECTION

As noted in section 5.8, acceptance of a proposal does not oblige IDRC to incorporate any or all of the accepted proposal into a contractual agreement, but rather demonstrates a willingness on the part of IDRC to enter into negotiations for the purpose of arriving at a satisfactory contractual arrangement with one or more parties.

Without changing the intent of this RFP or the Lead Proponent's proposal, IDRC will enter into discussions with the Lead Proponent for the purpose of finalizing the Contract.

In the event no satisfactory Contract can be negotiated between the Lead Proponent and IDRC, IDRC may terminate negotiations. In such event, if IDRC feels that the Proponent with the second highest score may meet the requirements, IDRC will continue the process with the secondary Proponent, and so on.

Announcement of the successful Proponent will be made to all Proponents following the signing of a Contract no later than 72 days following the award of a Contract. Upon request from an unsuccessful Proponent, IDRC will provide the reasons why that particular proposal was not selected.
