- o Bidders must submit a bid for the resource category

## **Description of Work:**

The Information and Technological Solutions Branch and the Chief Information Officer are seeking an Azure Cloud Architect for the On-premises and Cloud environment. The need associated with this mandate is essentially for a bank of hours to support our internal contractor in specific and highly specialized tasks. The mandated contractor will be required to perform various tasks on the existing IM/IT Infrastructure such as:

In addition to designing, managing and administering the IM/IT Infrastructure, the contractor will also be responsible for ensuring the consistency, quality, security and ongoing availability of information

The objective of this project is to assist in the development of the IM/IT infrastructure in the cloud space. The resource will also be responsible for overseeing the migration of workloads from on-premises to the cloud in compliance with ITSG-33 standards by the Canadian Cyber Security Centre. Additionally, the Cloud Architect will be responsible for ensuring that critical applications are designed and optimized for high availability and disaster recovery.

**Security Requirement:** Common PS SRCL #9 applies

**Minimum Corporate Security Required:** Reliability Status

**Minimum Resource Security Required:** Reliability Status
