1. Vendor Question and Answer:

Question 1:

I am writing this email regarding the qualification to bid on the Radio Tower Repair and Maintenance/Inspection Project, Various Locations in Saskatchewan (M5000-22-1325/A) project. I noticed in the mandatory requirements minimum 5 years' experience within the last 10 years in communication tower maintenance and/or communication antenna removal and install, Our company is coming up on a year in business, I as an owner have over 15 years' experience in the industry and all our employees have experience ranging from 20 years to 5 years within the Industry.

The way it is currently worded is based on the company's experience. After discussion with the technical authority, the mandatory criteria will be amended to either the business experience or each proposed crew member having a minimum of 5 years' experience.
