Amendment 001

This amendment is being raised to answer bidder questions and make revisions to the tender package.

A. Question and Answers

Q1. Using wood strapping 2'o.c. with a standing seam metal roof system will promote more oil-canning in the standing seam sheets. The standing seam metal roof should be installed on a solid surface. Please advise.

A1. The standing seam metal roof installed on a solid surface is not acceptable, please install straps as per the statement of work. Alternate products will be considered for approval after award; proposed alternatives must meet the same performance requirements as outlined in the tender documents. Bidders should bid as per the specifications since there is no guarantee that an alternate will be approved.

Q2. Please clarify gable end metal siding as the existing building is wood planks.

A2. The gable ends on the building do not need to be covered with metal. We required metal vented soffits installed on this building. See SOW revisions below.

Q3. Please clarify vented soffit as the existing building appears to be wooden soffit.

A3. Yes, there are wooden soffits installed currently.

B. Tender Package Revisions

IN) Specifications - 5P468-21-0126-StatementOfWork

Section 2. v.

DELETE: Supply and install colour matched metal fascia, vented soffit, gable end metal siding and colour matched metal eavestroughs.

REPLACE WITH: Supply and install colour matched metal fascia, vented soffit, ~~gable end metal siding~~ and colour matched metal eavestroughs.

ALL OTHER TERMS & CONDITIONS REMAIN UNCHANGED
