

### Amendment #3

This Solicitation amendment is raised to answer questions received from Bidders.

#### **A. QUESTIONS AND CORRESPONDENT ANSWERS:**

**Question 3:** I would to apply for the occupational therapist service (346) with the OAG. However, I was wondering if it was a requirement to provide the service in all the provinces that are listed, that is, Nova Scotia, Quebec, Ontario, Alberta and British Columbia. I'm currently licensed in Ontario and Quebec. If it's possible provide the service in these two provinces only, please inform me and I'll apply.

**Answer 3:** The contract requirement described in Section 2 of Statement of Work, subsection V. Constraints, item vii, remains unchanged. The Contractor must be able itself or through the provision of professional resources that are licensed to provide occupational therapy services in Ontario, Quebec, Alberta, Nova Scotia and British Columbia, as the OAG's operational requirement is to be able to support all employees in its main and regional offices.
