SOLICITATION AMENDMENT 002 ISSUED TO ANSWER BIDDER QUESTIONS AS FOLLOWS:

Bidder Questions & Answers

Item # 2.1.9

Q1: Is a proposed radio that is fully compliant with FCC regulatory requirements only acceptable?

A1: No. Proposed radio must be compliant with FCC regulatory requirements and be approved by Industry Canada for use in Canada.

Item # 2.3.8

Q2: *DTMF is very uncommon these days and it is an old technology. Current radios do not support DTMF tones. Will Canada consider removing this requirement from the list?*

A2: Please see amended specification below.

Item # 2.3.16

Q3: *An external amplifier is required to meet the specifications. What happens if the OEM does not offer an amplifier as part of their portfolio. Can Canada confirm if CCG will identify and integrate the external amplifier?*

A3: If the OEM does not offer an amplifier as part of their portfolio, or the equipment radio does not meet the power requirements without a PA then you will need to identify and include a third party equipment power amplifier as part of the bid submission that satisfies the requirements in the specified band and at the specified RF power levels.

Annex "A" – Requirement & Mandatory Technical Criteria

DELETE: Section 2, 2.3.8 "*Equipment radio(s) should transmit DTMF tones*" in its entirety

ALL OTHER TERMS AND CONDITIONS REMAIN UNCHANGED.
