Amendment 001 has been raised to provide answers to questions from industry and modify the RFP.

A Questions and Answers

- Q1. With regards to Canadian Customs and Duty we don't normally quote this or include in the cost because it fluctuates. Is it mandatory to include Canadian Customs and Duty in the cost?
- A1. Please review 4.1.2 Financial Evaluation and 6.12.1 *Shipping Instructions – Delivery at Destination*. The Financial Bids must include all costs for the requirement described in the bid solicitation which includes customs duties.
- Q2. Regarding cost and prices, we only quote in USD. Is it ok to have the cost in the tender in USD?
- A2. Yes. Please review 4.1.2 *Financial Evaluation* for all details.
- Q3. What functionality is being sought after in the Reconstruction software? Is this the ability to generate a scaled 2D diagram from the pointcloud data?
- A3. We require automatic scan registration (combining multiple scans into one) and exporting as a mesh with high resolution textures. Please see modification below.
- Q4. Does the included software need to be able to export to any specific data formats?
- A4. 3D formats (.obj, .fbx) are what we require. Please see modification below.
- Q5. We offer software licensing either as permanent or subscription licenses – are either acceptable?
- A5. Subscription licenses are not acceptable. As per supplemental general condition 4003 11 (2008-05-12) *Term of License*, Canada's license to use the Licensed Software is perpetual.

B Modifications to the RFP

At Annex A of the RFP, delete **Mandatory Technical Requirements** in its entirety and replace with the following:

The 3D laser scanner system must work and operate at all times in accordance with all of the following mandatory technical requirements:

- Must have a minimum range of 130 m;
- Must have a HDR Integrated camera;
- Must provide a measurement speed of > 500,000 points/sec;
- Must provide a minimum position accuracy of 3mm at 10m;
- Must have a Dual Axis compensator;
- Must operate within temperature range of -10 C to +40 C, inclusive;
- Must be a portable non-stationary unit with total weight, including battery, of no more than 7kg;
- Must have wireless connectivity to a smartphone, tablet, or laptop;
- The software must provide automatic scan registration (combining multiple scans into one) and exporting as a mesh with high resolution textures; and
- The software must export to 3D formats in .obj and .fbx.

ALL OTHER TERMS AND CONDITIONS OF THE SOLICITATION

REMAIN THE SAME
