Amendment 1

This amendment is raised to modify the Request for Proposal and the Annex A - Statement of requirement as follow;

At PART 7- Resulting Contract Clauses

DELETE:**7.17 Pre-Production Sample(s)**

1. The Contractor must provide one pre-production sample for each line item (size to be specified at time of request), if applicable, to the Technical Authority for acceptance within thirty (30) calendar days from date of contract award.
2. Pre-production samples will also be a requirement when
 - a) there is a change in a sub-contractor during the life of the Contract; or
 - b) there is a major technical change to the item; or
 - c) when a new line item is added to the Contract.
3. If the pre-production samples are rejected, the Contractor must submit a second pre-production sample within twenty (20) calendar days of notification of rejection from the Technical Authority.
4. If the pre-production samples are accepted by either full acceptance or conditional acceptance, the Contractor must proceed with production as per the Contract requirements.
5. Rejection by the Technical Authority of the second pre-production samples submitted by the Contractor for failing to meet the contract requirements will be grounds for termination of the Contract for default.
6. The Contractor must carry out all required inspection and tests to verify conformance to the technical requirements of the Contract.
7. In addition to providing the pre-production samples, the Contractor must provide a copy of the inspection reports and laboratory test reports and/or Certificates of compliance, as applicable, to the Contracting Authority and Technical Authority, transportation charges prepaid, and without charge to Canada.
8. The pre-production samples submitted by the Contractor will remain the property of Canada.
9. The Technical Authority will notify the Contractor, in writing, of the full acceptance, conditional acceptance, or rejection of the pre-production samples. A copy of this notification will also be provided by the Project Authority to the Contracting Authority. The notice of the full acceptance or conditional acceptance does not relieve the Contractor from complying with all requirements and conditions of the Contract.
10. The Contractor must not commence or continue with production of the items and must not make any deliveries until the Contractor has received a written notification from the Project Authority that the pre- production samples are fully acceptable or conditionally acceptable. Any production of items before pre- production sample acceptance will be at the sole risk of the Contractor.

CERTIFICATE OF COMPLIANCE - COMPONENT MANUFACTURER - DEFINITION

A Certificate of Compliance is defined as a signed and dated certification by an appropriate official of the component manufacturer (e.g. zipper, hook and loop, webbing, etc.). It must specifically address the adherence of the offered component to the specification or manufacturing data of the technical requirement.

A separate Certificate of Compliance must be provided for each individual product as required in the specifications. The Certificate of Compliance must be dated within six months from date of PPS submission. The Contractor is to note that copies of invoices, purchase orders and Certificate of Compliance for products or components that are not manufactured by the certifier are not suitable for use as a Certificate.

CERTIFICATE OF COMPLIANCE - FABRIC - DEFINITION

A Certificate of Compliance is a written statement from an appropriate official Fabric Supplier attesting the full compliance of the product to the Contract specification, or portion of the specification, referenced. The Certificate of Compliance must be on official company stationery. It must be dated within six months from date of PPS submission. It must make reference to the applicable specification and have the original signature of the company's designated representative. Canada reserves the right to verify the statements made in the Certificate of Compliance. Full laboratory test results, demonstrating the product's compliance, will be accepted in lieu of a Certificate of Compliance.

INSERT:

7.17 Pre-Production Sample(s)

1. The Contractor must provide one pre-production sample for each line item (size to be specified at time of request), if applicable, to the Technical Authority for acceptance within thirty (30) calendar days from date of contract award.
2. Pre-production samples will also be a requirement when
