J85 Historical Data

J85 Propulsion Group - Historical Removals for First Line Main Assemblies (FLMAs) and First Line Replaceable Units (FLRUs)

This data is subject to change as further validation is ongoing.
The GOC cannot be held responsible for lack of data accuracy or its interpretation.

Note: Number of removals per is the maintenance action and is different from demand since demand may include ordering additional spares.

Summary information WRT PG items that are 3rd line repaired at RMAs other than the main contractor

PWS Annex F - Appendix 1 - Government Furnished Equipment (GFE) (Quantity and status as of: (01 Aug 2016))							
Government Furnished Equipment (GFE) is defined as equipment supplied by Canada to be used in the production process; for example, tooling, jigs, dies, production equipment. Specifically for the purpose of this RFP it also includes IT hardware , test equipment and shipping containers.							
OEM Part Number	NSN.	Description / Nomenclature	Qty	Serial no. (if available)	Condition (Serviceable, U/S)	Purpose / Used on code	

PWS Annex F - Appendix 2 - Contract Issue Spares (CIS), Accountable Advanced (AA) and Government Furnished Overhaul Spares (GFOS) at the incumbent 3rd line engine overhauler (Quantity and status as of 1 Aug 2016)					
The responsibility for managing these spares will be transitioned to the contractor at contract award.					
Part Number	Item Description	Repairable or Consumable	Status	Unit of issue	Qty

NOTE: For review purposes only this information will not be in the RFP - The data in this tab includes all of the inventory that is managed by the in scope TAC as well as the inventory at the current 3rd line contractor in the following locations; RMA WAO1 ORENDA AEROSPACE COR 10010170_P - 10010170*C, RMA WAO1 NS - 1000_00GR, RMA WAO1 SERV - 1000_00GQ, CRPA EAQ1 SERV - 1000_00GS, ORENDA AEROSPACE CORPORATION - QARTEAQ1

Government-Supplied Material (GSM) is defined as any item of material acquired by the government of Canada and provided on a "free issue" basis to contractors for embedment in materiel under production or for incorporation into Crown-owned equipment undergoing modification, repair or overhaul. The items listed are all of the items that are currently managed by the TACs listed in Scope, including the Contract Issued Spares (CIS) that are in a CFSS account. The quantities listed also refer to common items used by other fleets. The responsibility for managing these spares will be transitioned IAW the PWS transition requirements - Section 2.

The data source is the CFSS (Canadian Forces Supply System). The list does not include items that are installed on aircraft and may not include items in second line shops. The list is subject to change due to ongoing inventory transactions and will be the subject of a stocktaking during Contract Transition.

Definitions

Accountability Code:

A = Accountable, C = Consumable, E = Controlled Equipment (Tracked by Serial Number)

Serviceable: A state or condition of an aircraft, equipment or system that will allow it to perform its intended function or mission in an airworthy, safe and acceptable manner.

Repair: Corrective maintenance activity required to restore the item to serviceable condition by correcting faults or replacing pieces of the item with new, reconditioned, overhauled or rebuilt components.

Other: Items in other condition than the above, including but not limited to Quarantine and Waiting for inspection.

Support Equipment: Items that are used in support of the maintenance, repair and transportation.

PWS Annex F - Appendix 2 - FLMA and FLRU Configuration for CT114 (Status as of 1 Aug 2016)						
Configuration information for FLMA and FLRU WUCs. The responsibility for managing this will be transitioned to the contractor.						
WUC	DESCRIPTION	Part No	Stock Code	FLMA	FLRU	

PWS Annex F - Appendix 2 - ADAM Detailed inventory information (Quantity and status as of 20 Aug 2017)

The data source is the ADAM (Automated Data for Aerospace Maintenance).

The list includes all lifed and tracked items currently installed, in shops and spares for the J85 engine.
