Description of Work:

The RADARSAT Constellation Mission Operating Licence (RCMOL) required under the Remote Sensing Space Systems Act (RSSSA), was issued by Global Affairs Canada (GAC) in 2019 to allow The RADARSAT Constellation Mission (RCM) to be launched and operated. It imposes the obligations and conditions necessary for the protection of national security. Unlike RADARSAT-2, RCM is operated by the Government. Its operation involves multiple government departments and it handles both classified and unclassified SAR and unclassified AIS data.

Operating remote sensing satellites under the RSSSA regime is new for the Canadian Space Agency (CSA) and implies the compliance to many new regulatory obligations and interactions with user departments and operating partners.

The winning bidder will have to support of all tasks related to the management and implementation of the RCMOL, the RSSSA and its associated regulations, for ensuring all compliance by the CSA with the conditions and restrictions imposed by GAC. This support includes all projects and associated services related to the RCMOL implementation in a multi-missions environment.

Contract Authority

Contracting Authority: Valérie Geoffroy
Phone Number: 438-364-2385
E-Mail: valerie.geoffroy@asc-csa.gc.ca

Inquiries

Inquiries regarding this RFP requirement must be submitted to the Contracting Authority named above. Request for Proposal (RFP) documents will be e-mailed directly from the Contracting Authority to the Qualified Supply Arrangement Holders who are being invited to bid on this requirement. BIDDERS ARE ADVISED THAT "BUYANDSELL.GC.CA" IS NOT RESPONSIBLE FOR THE DISTRIBUTION OF SOLICITATION DOCUMENTS. The Crown retains the right to negotiate with any supplier on any procurement. Documents may be submitted in either official language.

NOTE: TSPS is the mandatory method of supply for the provision of non-informatics professional services, both task and solutions based, at or above the North American Free Trade Agreement (NAFTA) threshold. This method of supply covers five core areas of expertise that are commonly and nationally used: human resources services; business consulting/change management; project management; real property project management services; and technical engineering and maintenance services.

For contact information please refer to PSPC's [Contact Acquisitions page](#).
