Amendment 1
Artificial Intelligence Decryption Service – Questions and Answers

Q1. Is there an existing dataset that can be used as a training corpus, and if so is it labelled?

A1. We have datasets, but they are not labelled.

Q2. If there is a dataset available, is it comprised of synthetic or real-data, and does it require any sensitivity to redacted data?

A2. Datasets are real data, and does not require any sensitivity to redacted data.
