The Solicitation Amendment 002 is raised to issue Addendum 002.

Please see Addendum 002 herein.

All other terms and conditions remain unchanged.

The following changes in the tender documents are effective immediately. This addendum will form part of the contract documents.

.1 Responses (R) to Questions (Q) Received:

Q.1 The system capacity requested on day one is 30 KVA/30 KW , will you require an additional module for N+1 redundancy delivered on day one too or only the capability/space of having an extra module added when you required it in future?

R.1 *The required system on day on is to be 30kVA/30kW with one additional module for N+1 redundancy.*

Q.2 There is a new battery technology that is much safer than Li-Ion yet offers many of the advantage that the Li-Ion batteries have. NiZn batteries have 10 year standard OEM warranty and are completely safe and certified to UL9540A - Test Method Testing the fire safety hazards associated with propagating thermal runaway within battery systems. Are you open to consider this option as an alternative to Li-Ion?

R.2 *All bids are to be based on Li-Ion battery system as per the Specifications.*

Q.3 After review of the actual size of the new UPS components. There will not be enough room in the existing UPS #1 location. We will need to relocate the new UPS to the end wall as shown on the attached drawing.

Will there be any issue with using this space?

R.3 *The space currently occupied by the existing UPS #1 and the entire length of the end wall of the UPS room are available for the installation of new UPS system equipment. See below for the picture of the UPS room end wall. Exact location of UPS system equipment to be coordinated with Departmental representative prior to installation.*

UPS room end wall

Q-4 Can [we] get the list of registered bidders so we collaborate with them offering them for the scope of supply, testing and commissioning of UPS system whilst they focus on the contractual and electrical works of their area of competence.

R.4 There is no list of bidders that will be published.
However, on the buyandsell.gc.ca website there is a 'voluntary' List of Interested Suppliers that you can view or elect to register. Visit www.buyandsell.gc.ca and view "Access the List of Interested Suppliers for this tender" usually found around the top of the Tender Notice – Notice of Proposed Procurement page.

END OF ADDENDUM No. 2
