GENERAL INFORMATION

1.0 PROJECT SUMMARY

The development of artificial intelligence algorithms requires large amounts of data—preferably observational data (collected in a commercial context). Agronomic or agri-environmental service clubs generally have access to their producers' data and thus centralize large volumes of data. We are looking for a service club that has high-quality georeferenced data. This data will be analyzed using other data sources such as satellite imagery, weather data, or aggregated economic data. This company will need to agree to act as a supplier for its producers' data and as an intermediary when data is collected in the field, which would allow AAFC researchers to initiate a unique artificial intelligence program using commercial data.

2.0 ACCEPTANCE OF TERMS AND CONDITIONS

- 2.1 Agriculture and Agri-Food Canada will only consider Proposals which accept Agriculture and Agri-Food Canada's terms and conditions.
- 2.2 The General Conditions attached in Appendix A and those set out in Part 3 of this RFSO shall form part of any Call-ups against a Standing Offer.

3.0 INCURRING COST

- 3.1 The cost to prepare the Proposal will not be reimbursed by Agriculture and Agri-Food Canada.
- 3.2 No cost incurred before receipt of a signed Call-up or specified written authorization from the Contracting Authority can be charged to any Resulting Contract.

4.0 ENQUIRIES - SOLICITATION STAGE

- 4.1 All enquiries or issues concerning this solicitation must be submitted in writing to the Contracting Authority named at Part 3A, section 5 of the RFSO. It is the responsibility of the Bidder to obtain clarification of the requirements contained herein, if necessary prior to submitting a proposal.
- 4.2 Enquiries and issues must be received by the Contracting Authority no later than **five (5) business days prior to the solicitation closing date** specified herein to allow sufficient time to provide a response. Enquiries or issues received after that time may not be able to be answered prior to the solicitation closing date.

- 4.4 All enquiries and other communications with government officials throughout the solicitation period are to be directed **ONLY** to the Contracting Authority. - 4.5 Meetings will not be held with individual bidders prior to the closing date/time of this RFSO, unless otherwise specified.
- 4.6 Bidders shall not place any conditions or make any assumptions that attempt to limit or otherwise modify the scope of Work pursuant to the Statement of Work, Appendix B.

4.7 Requests for Standing Offer amendment(s)

Any modifications to this RFSO will be made through an amendment which will be posted publicly via Buyandsell.gc.ca.

5.0 RIGHTS OF CANADA

- 5.1 Canada reserves the right to:
1. Accept any Proposal in whole or in part, without prior negotiation;
 2. Reject any or all Proposals received in response to this RFSO;
 3. Cancel and/or re-issue this RFSO at any time;
 4. Ask the Bidder to substantiate any claim made in the Proposal;
 5. Enter into negotiations with one or more Bidders on any or all aspects of their Proposals;
 6. Award one or more Standing Offers;
 7. Retain all Proposals submitted in response to this RFSO.

6.0 SUBSTANTIATION OF PROFESSIONAL SERVICES RATES

- 6.1 In Canada's experience, bidders will from time to time propose prices at the time of bidding that they later refuse to honour, on the basis that these prices do not allow them to recover their own costs and/or make a profit. When evaluating the prices for professional services bid, Canada may, but will have no obligation to, require price support for any prices proposed. Examples of price support that Canada would consider satisfactory include:
1. documentation (such as billing records) that shows that the Bidder has recently provided and invoiced another customer (with whom the Bidder deals at arm's length) for services similar to the services that would be provided under a resulting contract, and the fees charged are equal to or less than the price offered to Canada (to protect the privacy of the customer, the Bidder may black out the customer's name and personal information on the invoice submitted to Canada);
 2. a signed contract between the Bidder and an individual qualified (based on the qualifications described in this bid solicitation) to provide services under a resulting contract where the amount payable under that contract by the Bidder to the resource is equal to or less than the price bid;
 3. a signed contract with a subcontractor who will perform the work under any resulting contract, which provides that the required services will be provided at a price that is equal to or less than the price bid; or
 4. details regarding the salary paid to and benefits provided to the individuals employed by the Bidder to provide services, where the amount of

compensation, when converted to a per diem or hourly rate (as applicable), is equal to or less than the rate bid for that resource category.

Once Canada requests substantiation of the prices bid, it is the sole responsibility of the Bidder to submit information (either the information described in the examples above, or other information that demonstrates that it will be able to recover its own costs based on the prices it has proposed) that will allow Canada to determine whether it can rely, with confidence, on the Bidder's ability to provide the required services at the prices bid, while, at a minimum, recovering its own costs. Where Canada determines that the information provided by the Bidder does not demonstrate the Bidder's ability to recover its own costs in providing the prices bid, Canada may, at their sole discretion declare the bid non-compliant.

7.0 MANDATORY CLAUSES

7.1 Where the words “**must**”, “**shall**” or “**will**” appear in this RFSO, the clause is to be considered as a mandatory requirement.

8.0 DEBRIEFING

8.1 After Standing Offer award, bidders may request a debriefing on the results of the bid solicitation process. Bidders should make the request to the Contracting Authority. The debriefing may be in writing, by telephone or in person at the discretion of the Contracting Authority.

9.0 OFFICE OF THE PROCUREMENT OMBUDSMAN

If you have issues or concerns regarding the solicitation, you have the option of raising them with the department or with the Office of the Procurement Ombudsman (OPO). The Office of the Procurement Ombudsman was established by the Government of Canada to provide an independent avenue for suppliers to raise complaints regarding the award of contracts under \$25,000 for goods and under \$100,000 for services. You have the option of raising issues or concerns regarding the solicitation, or the award resulting from it, with the OPO by contacting them by telephone at 1-866-734-5169 or by e-mail at boa.opo@boa.opo.gc.ca. You can also obtain more information on the OPO services available to you at their website at www.opo-boa.gc.ca.

6.0 CERTIFICATION REQUIREMENTS (Section 3)

In order to be awarded a Standing Offer, the certifications attached **in Appendix E** will be required. The certifications should be submitted with the proposal. Canada may declare a bid non-responsive if the certifications are not submitted or completed as required. Where Canada intends to reject a proposal pursuant to this paragraph, the Contracting Authority will so inform the Bidder and provide the Bidder with a time frame within which to meet the requirement. Failure to comply with the request of the Contracting Authority and meet the requirement within that time frame period will render the proposal non-responsive.

Compliance with the certifications the Bidder provides to Canada is subject to verification by Canada. The Contracting Authority shall have the right to ask for additional information to verify that the Bidder is compliant with the applicable certifications before and after award of a Standing Offer. Any certification made by the Bidder that is determined to be untrue, whether made knowingly or unknowingly, or any failure to comply with the certifications or comply with the request of the Contracting Authority for additional information, will render the bid non-responsive.

6.3 No waiver shall be valid, binding or affect the rights of the Parties unless it is made in writing by, in the case of a waiver by Canada, the Contracting Authority and, in the case of a waiver by the Contractor, the authorized representative of the Contractor.

6.4 The waiver by a Party of a breach of any term or condition of the Contract shall not prevent the enforcement of that term or condition by that Party in the case of a subsequent breach, and shall not be deemed or construed to be a waiver of any subsequent breach.

GC7. Time of the Essence

It is essential that the Work be performed within or at the time stated in the Contract.

The notice shall state the cause and circumstances of the delay and indicate the portion of the Work affected by the delay. When requested to do so by the Minister, the Contractor shall deliver a description, in a form satisfactory to the Minister, of work-around plans including alternative sources and any other means that the Contractor will utilize to overcome the delay and Endeavour to prevent any further delay. Upon approval in writing by the Minister of the work-around plans, the Contractor shall implement the work around plans and use all reasonable means to recover any time lost as a result of the excusable delay.

8.3 Unless the Contractor complies with the notice requirements set forth in the Contract, any delay that might have constituted an excusable delay shall be deemed not to be an excusable delay.

8.4 If an excusable delay has continued for thirty (30) days or more, Canada may, by giving notice in writing to the Contractor, terminate the Contract. In such a case, the Parties agree that neither will make any claim against the other for damages, costs, expected profits or any other loss arising out of the termination or the event that contributed to the excusable delay. The Contractor agrees to repay immediately to Canada the portion of any advance payment that is unliquidated at the date of the termination.

8.5 Unless Canada has caused the delay by failing to meet an obligation under the Contract, Canada will not be responsible for any cost incurred by the contractor or any subcontractors or agents as a result of an excusable delay.

8.6 If the Contract is terminated under this section, Canada may require the Contractor to deliver to Canada, in the manner and to the extent directed by Canada, any completed parts of the Work not delivered and accepted before the termination and anything that the Contractor has acquired or produced specifically to perform the Contract. Canada will pay the Contractor:

ANNEX B – STATEMENT OF WORK

1. Title: Purchase of agronomic data from commercial companies for the development of artificial intelligence algorithms

2. Classification:

The supplier will not have access to designated or classified information belonging to the Crown.

3. Background:

The development of artificial intelligence algorithms requires large amounts of data—preferably observational data (collected in a commercial context). Agronomic or agri-environmental service clubs generally have access to their producers' data and thus centralize large volumes of data. We are looking for a service club that has high-quality georeferenced data. This data will be analyzed using other data sources such as satellite imagery, weather data, or aggregated economic data. This company will need to agree to act as a supplier for its producers' data and as an intermediary when data is collected in the field, which would allow AAFC researchers to initiate a unique artificial intelligence program using commercial data.

4. Objective:

Purchase of georeferenced agronomic data from around 10 commercial companies covering 100 producing corn fields. The fields will have to contain at least one corn rotation within a 3-year period.

5. Scope of Work:

- Inventory corn crop data from a minimum of 10 farms (for a total of 100 fields).
- Fields must be located within a 300-km radius of AAFC's St-Jean-sur-Richelieu Research and Development Centre, located at 430 Gouin Boulevard, St-Jean-sur-Richelieu.

Data to be inventoried must include:

- a list of farm businesses;
- area (in hectares) (minimum of 5 hectares for a field);
- crops (including cultivars, inputs, and pesticide treatments);

- a list of crop rotations; and
- a raw yield map.

(A complete list of variables is defined in point 7.)

- Assemble the data in a database (e.g. Excel file).
- Clean the data (e.g. yield maps) to ensure consistency of units, indicate missing data, and ensure validity of data.
- Follow up with producers to allow sampling or UAV (Unmanned Aerial Vehicle) surveys by an AAFC team.
- Transfer the georeferenced database to AAFC to initiate payment.
- The fields in the study will be accepted by the AAFC project officers based on the research projects.
- The selected supplier must be available for up to 2 years after receipt of final data to answer questions from AAFC project officers and interact with producers.

6. Meetings:

If the supplier must visit a producer to download data, the cost of the trip must be included in the contract.

7. Report and deliverables:

The “Start Year” of the project is defined here as the 2021 growing season.

The “Database” is defined here as a set of documents containing data in the form of rows and columns (e.g. one or more Excel spreadsheet files) and other supporting files describing the production data for one or more fields (e.g. GeoTiff file, shapefile, GeoJSON) or required for deliverables.

The database must contain data for a minimum of 6 years and a maximum of 8 years. The time scale of the project is 3–5 years prior to and 3 years after the start year.

The database is for fields with at least two corn rotations over the entire project.

Throughout the database, the data description must include units (e.g. kilograms per hectare).

The database must include a minimum of five farms and a maximum of 10 farms.

The database must contain information for fields with a minimum of 5 hectares (ha).
