SOLICITATION AMENDMENT 009 IS RAISED TO ANSWER THE FOLLOWING QUESTION:

Question 1:

Given the similarity of the Grand Valley and Beaver Creek projects, we're noting that the scope of updating the (obsolete and no longer commercially available) S100 to the latest version, programming of new S100 points and map modifications is only available from a single source Senstar Technologies who are a Division of Magal Security (substantiation of this relationship is clearly demonstrated in the third party/arm's length source press release hyperlink below).

As we understand Magal to be a competing proponent for the same CSC RFP, for which they are also in control of a specified sole source provider, a clear conflict of interest has been created. To alleviate this conflict, we request consideration that all S100 scope be allocated to a Cash Allowance format such that fair competition can occur and the successful proponent can then manage Senstar Technologies via the Cash Allowance process.

Answer 1:

Canada will not consider cash allowances for this requirement. Upon review, no exclusive rights limit who can work on the equipment.

In this case Magal is considered the manufacturer along with Senstar. Manufacturers are not excluded from submitting a bid.
