This solicitation amendment number 001 is raised to respond to bidder's questions and provide clarifications.

**Question 001**

Kindly confirm that the required chock will be used for wheeled vehicle & not tracked one.

**Answer 001**

We confirm that the chock is for a wheeled vehicle.

**Question 002**

Regarding this tender, could you please give a maximum weight capacity the wheel chocks will be used for?

**Answer 002**

We really want the chocks to be rated to 70,000 lb GVWR, not really more, so that we can minimize the weight and size of them. But they shouldn't be rated to less than 70,000 lbs.
