Insert: **At MTC 1(d)**

Using a maximum of four reference contracts, must have invoiced for at least six resources providing services that are the same or similar in at least four of the following resource categories listed in Annex A SOW of this requirement:

QUESTIONS AND ANSWERS:

Question 3a: Currently suppliers are required to demonstrate two (2) contracts to meet CM1. As most contracts are put in place to support a specific system or group which typically utilizes only one (1) of the listed technologies, it is rare for a department or project, for example, to have and to use both .NET and Java on the same contract. Given this, would the Crown be willing to update the number of contracts that can be used for CM1 to four (4) contracts?

Answer 3a: An Amendment has been issued please see solicitation revision item number 2 and 3.

Question 3b Currently the contracts required for CM1 are required to have a contract value of \$3M. While we understand the importance of demonstrating experience supplying larger contracts, the requirement for the contract value to be \$3M eliminates most TBIPS Tier 1 contracts where the bidder, for example, has placed a team of several Application/Software Architects. Given this, we would like to respectfully request that the Crown either reduce the contract value from \$3M to \$1.5M to allow bidders a greater volume of contracts to choose from or instead require a cumulative contract value of \$4M across the contracts demonstrated.

Answer 3b: An Amendment has been issued please see solicitation revision item number 2 and 3. The other items were considered but remain unchanged.

Question 4: Due to the pandemic and a pause on some projects, would the crown consider changing MTC1e, RTC1 and RTC2 from days billed within the last three years to within the last five years?

An Amendment has been issued for MTC1e see solicitation revision item number 4 and for RTC2 see solicitation revision item number 5. RTC1 remains unchanged.

ALL OTHER TERMS AND CONDITIONS REMAIN THE SAME.
