Amendment-002

DISMANTLING OF ÎLE-DES-ESQUIMAUX WHARF AND BUILDING REMAINS, AND SEABED REMEDIATION

Included in the present amendment:

1. Questions and answers 1 to 3

1. QUESTIONS AND ANSWERS 1 TO 3 :

Question 1 : Is there a specific rock washing procedure?

Answer 1 : No, there is no specific procedure for washing the rocks. A visual inspection will be carried out on site to determine which ones should be washed and which ones can be reused without washing. To be acceptable for reuse as rip rap or for backfilling dredged pits, ballast stones must be free of all contaminants, including, but not limited to, soil, sediment, oil (for example: creosote, oil, fuel) or debris.

Question 2 : Regarding the request for use of the MERN, they are not able to provide us with the costs as well as the conditions of use of the land before the date of submission of the submission considering the processing time of the request. Can we assume that Canada will bear the costs associated with the rental and use of said land?

Answer 2 : The contractor is responsible for obtaining authorization from MERN or another site and bearing the financial burden.

Question 3 : In order to provide a more competitive price, is it possible to have a plan view of timber crib? Especially at the general warehouse and the salt and fish warehouse.

Answer 3 : The plans are available in the solicitation documents - Annex A.

***** ALL THE OTHER CLAUSES AND CONDITIONS REMAIN UNCHANGED *****
