Question 1) DND is requesting a sample with the Bid. In the requirements you are asking for full Mil 810G testing to be completed on the harness prior to bid submission. The design requirements as specified in the solicitation requires the building of a bespoke harness. While all of our current off the shelf carriers are Mil 810G certified, this new design would require testing to be done. Would DND accept statement of compliance based on similarity? Conversely if the testing is required would DND allow the certification results to be submitted by January 15?

Response 1) All requirements for the DAAS must be met at time of bid submission including MIL-STD-810G testing. Tests on similar versions of the vest is not acceptable. The DAAS vest is intended to be COTS or MOTS.

Question 2) The current amendment calls for the submission of the vendor proposals by Dec 20 along with the initial sample. We have some concerns with the impact of the holidays on shipping. Would DND allow the vendors to deliver the bid sample no later than January 15.

Response 2) The bid samples must be shipped, postmarked prior to the closing date. The inclusion in the bid package to PSPC of a receipt showing the shipment prior to the closing date is sufficient to confirm samples have been sent.
