**Solicitation Amendment: 005**

This solicitation amendment 005 has been raised to:

- (A) Respond to a question regarding the RFP.
- 

**(A) QUESTIONS AND ANSWERS**

**Question 1:**

Does RCMP expect geotechnical investigations and recommendations to occur during the course of this assignment, or to be completed afterwards based on the scope of services provided?

If services can be contracted for soils testing within the time frame of the study, the testing will proceed to inform the study deliverables.

**Question 2:**

Would the RCMP clarify what existing on-site geotechnical information is available (borehole data, monitoring wells, etc.)

RCMP has limited geotechnical information and borehole data for recent projects on the upper escarpment where construction projects have been completed. Further limited information is also available for some proposed projects in the southern portion of the site. Information on file will be made available to the successful proponent.

**Question 3:**

Would the RCMP clarify what information is to be collected as part of 'soils testing' described in deliverable 4?

It is expected that soils information sufficient to inform viability and cost of proposed solutions will be required

**ALL OTHER TERMS AND CONDITIONS REMAIN UNCHANGED.**
