**Solicitation Amendment 001 is raised to:**

**A) Modify Part 4 (remove required certifications/trainings for individuals)**

**B) Modify Annex A**

---

## **A) Modify Part 4**

Delete: **PART 4 - EVALUATION PROCEDURES AND BASIS OF SELECTION** in its entirety;  
and

Insert: The following new **PART 4 - EVALUATION PROCEDURES AND BASIS OF SELECTION**

### **PART 4 - EVALUATION PROCEDURES AND BASIS OF SELECTION**

#### **4.1 Evaluation Procedures**

- (a) Offers will be assessed in accordance with the entire requirement of the Request for Standing Offers including the technical and financial evaluation criteria.
- (b) An evaluation team composed of representatives of Canada will evaluate the offers.

##### **4.1.1 Technical Evaluation**

###### **Mandatory Technical Criteria**

###### **Submission of Evidence**

Submission of Evidence as described at **4.1.1.1 to 4.1.1.4** must be included with the Offeror's offer at time of solicitation closing. Failure by the Offeror to provide the required evidence will result in the offer being disqualified and no further consideration will be given to the Offeror and the offer will be deemed non responsive.

The evidence provided by the offeror may be verified. PSPC reserves the right to verify information for completeness and accuracy and to confirm reference satisfaction with services provided.

###### **4.1.1.1 Accidents or Incidents**

Offerors must disclose below the number of occupational accident(s) or environmental incident(s) involving the transportation and disposal of all asbestos, lead, mould, and bat and bird droppings removal operations and/or silica contaminated wastes that occurred from January 2016 up to solicitation closing date AND that resulted in a **regulatory violation** against the Offeror.

Disclosure of past occupational accidents or environmental incidents taking place from January 2016 up to solicitation closing date: \_\_\_\_\_ # of accidents/incidents

**Offerors having four (4) or more accidents or incidents that occurred from January 2016 up to solicitation closing date and that resulted in a regulatory violation will be considered non-responsive and no further consideration will be given.**

#### 4.1.1.2 Mandatory Company Experience and Past Performance

The Offeror must provide evidence of its experience and past performance by referencing two (2) projects per DSHM including Moderate or High-risk asbestos precautions, Type 2 or 3A lead precautions and Level 2 or Level 3 mould precautions completed or ongoing since **January 2016** in Federal, Provincial, Municipal Government environments for Projects involving asbestos, lead, mould and bat and bird dropping removal operations and silica work operations identified at 4.1.1.2.1 to 4.1.1.2.10. **The Offeror must complete the following tables in order to demonstrate that they have the required experience. Failure to complete the tables below with the required information will render the offer non-responsive.**

The experience must be acquired from January 2016 to solicitation closing date.

##### 4.1.1.2.1 PROJECT REFERENCE NO. 1 - MODERATE-RISK/HIGH-RISK ASBESTOS WORK OPERATIONS

Name of client organization or client Company	Name: _____
Name and title of client contact who can confirm the information presented in the proposal	Name: _____ Title: _____
Telephone and e-mail address of client contact	Phone Number: _____ E-mail: _____

Scope of service(s) rendered <i>(use additional sheet (s) if space provided is not enough)</i>	

#### 4.1.1.3 Categories of Service and Proposed Personnel

Labourers	Site Supervisor	Senior Resources
Add rows if required.		

List the names of proposed personnel for each category of services. Please note, any personnel required to be on site **must** meet the security requirements, see **7A.2 Security Requirement**. An individual may be proposed for more than one (1) category of services, but the Offeror must ensure that the category of services and person performing it is appropriately identified when responding to a call-up and submitting the invoice.

#### 4.1.1.4 Mandatory Training and Certifications

##### 4.1.1.4.1 For Individuals

~~The Offeror must provide proof of Training / Certifications for ALL proposed Labourers and Site Supervisors before the start of site work. For the purpose of evaluation, the Offeror must demonstrate that Labourers and Site Supervisor listed above have received the following training by submitting valid copies of their training certificate:~~

- ~~1) Proof of Respirator Fit test~~
- ~~2) Proof of Workplace Hygiene Training for Type 1, Type 2 and Type 3 Asbestos Work Operations by a competent person, as defined in O. Reg 278/05 Section 19 and Q. Reg S-2.1 r.4 article 3.23.7 including but not limited to~~
  - ~~a. The hazards of asbestos exposure~~
  - ~~b. Personal hygiene and work practices, and~~
  - ~~c. The use, cleaning and disposal of respirators and protective clothing, including~~
    - ~~i. The limitations of the equipment~~
    - ~~ii. inspection and maintenance of the equipment~~
    - ~~iii. proper fitting of a respirator, and~~
    - ~~iv. Respirator cleaning and disinfection~~
  - ~~d. the employer's general obligations~~
  - ~~e. the worker's rights and obligations~~
  - ~~f. the tasks to be carried out and the equipment and tools to be used~~
  - ~~g. safe working methods and procedures~~
- ~~3) Workplace Hazardous Materials Information Systems (WHMIS)~~

- ~~4) Proposed labourers for asbestos abatement must have successfully completed the Asbestos Abatement Worker Training Program approved by the Ministry of Advanced Education and Skills Development.~~
- ~~5) Proposed site supervisors for asbestos abatement must have successfully completed the Asbestos Supervisor Worker Training Program approved by the Ministry of Advanced Education and Skills Development.~~

#### **4.1.1.4.1 For Organization**

- 1) The contractor must demonstrate that the receiver facility(ies) intended to accept asbestos and other designated and hazardous material waste as indicated in 1.2.2 and are duly licensed/approved by the authority having jurisdiction by submitting a valid copy of its license.
- 2) RBQ licenses 2.7 and/or 7 (Québec)
- 3) Proof of applicable certifications or permits required by provincial and/or federal authorities to transport asbestos contaminated waste.

#### **4.1.3 Financial Evaluation**

##### **4.1.3.1 Evaluation of Price - Offer**

The price of the offer will be evaluated in Canadian dollars, Applicable Taxes excluded, FOB destination, Canadian customs duties and excise taxes included.

Offerors must complete and submit a Financial Offer attached at Annex B in response to this RFSO. Upon completion of the technical evaluation, financial offers of all responsive offers will be evaluated

#### **4.2 Basis of Selection**

An offer must comply with the requirements of the Request for Standing Offers and meet all mandatory technical evaluation criteria to be declared responsive.

The three (3) responsive offers with the lowest evaluated price will be recommended for issuance of a standing offers.

---

#### **B) Modify section 3.7 of Annex A**

Delete: **Annex A** in its entirety; and  
Insert: The attached new **Annex A**

*No other changes apply*

## Annex A

### Statement of Work

## Designated Substance and Hazardous Material Removal or Repair

### 1 Objective

- 1.1 Various buildings throughout the National Capital Area (NCA) require frequent minor work operations involving Designated Substances and Hazardous Materials (DSHM) in order to implement regular building operational and maintenance activities, as well as accommodating minor property management-driven projects. Large scale work operations may also be requested from time to time. The intention of creating a Standing Offer is to provide in a timely manner, consistent, reliable DSHM contracting services to environmental specialists within the NCA.
- 1.2 The main objective of this SO is to provide the following services as a minimum:
  - 1.2.1 To provide appropriate asbestos emergency response and asbestos decontamination operations in PWGSC-serviced facilities in the NCA
  - 1.2.2 To provide all appropriate tools, materials, and personal protective equipment in accordance with the Ontario Regulation 278/05 (O.Reg 278/05) or the Safety Code for the Construction Industry (Q.Reg S-2.1, r.4) and the Regulation Respecting Occupational Health and Safety (Q.Reg S-2.1, r.13), as well as the PWGSC asbestos management Standard and Canadian Occupation Health and Safety Regulations (COHSR) for asbestos work operations in PWGSC-serviced facilities in the NCA including:
    - Low-risk,
    - Moderate-risk,
    - Moderate-risk Glove bag and,
    - High-risk.
  - 1.2.3 To provide all appropriate tools, materials, and personal protective equipment in accordance with the Ontario Regulation 490/09 (O.Reg 490/09), Government of Ontario 2011 Guideline – Lead on Construction Projects and with Q.Reg S-2.1, r.4 for lead work operations in PWGSC-serviced facilities in the NCA.
    - Type 1,
    - Type 2,
    - Type 3a.
  - 1.2.4 To provide all appropriate tools, materials, and personal protective equipment in accordance with Environmental Abatement Council of Ontario (EACO) Mould Guidelines 2010 and the Canadian Construction Association (CCA) 82-2004 – Mould Guidelines for the Canadian Construction Industry for mould,

and bat and bird droppings removal operations in PWGSC-serviced facilities in the NCA.

- Level 1,
- Level 2,
- Level 3.

1.2.5 To provide all appropriate tools, materials, and personal protective equipment in accordance with the O.Reg 490/09 and Government of Ontario 2011 Guideline – Silica on Construction Projects for silica work operations in PWGSC-serviced facilities in the NCA.

- Type 1 and,
- Type 2.

1.2.6 To remove any non-hazardous materials to access the work area and patch and make good impacted materials for finishing by others

1.2.7 To transport and dispose of all asbestos, lead, mould and/or silica contaminated wastes in an appropriate manner. Separate and dispose of non-hazardous waste generated as part of the work as per O. Reg 347/90.

### 1.3 Response Time

The Contractor is required to respond to individual call-ups (as determined at the time of each individual call-up) according to the following:

1.3.1 **Emergency Response:** refers to a request for services called-up against the Standing Offer where there is a stated high risk to human health and safety or significant damage to a building likely to occur if rapid response and corrective action are not undertaken within 4 hour time frame, 24 hours a day, 7 days a week including holidays.

1.3.2 **Rapid Response:** PWGSC understands the term rapid response to meaning within 24 hours the SO holder would respond to a call-up request made against the Standing Offer. In this case the response would be the provision of cost estimates, and a schedule of work to be implemented in the shortest possible time within a 24 hour time frame, including weekends and holidays.

## 2 Definition of Terms

2.1 "Asbestos-related projects" refers to any project wherein asbestos materials will be destroyed, damaged, removed, or otherwise affected during the course of the project, or may require the disposal of asbestos-contaminated wastes.

2.2 "Call-up" against a Standing Offer (SO) is an order issued under the authority of a duly authorized user against a particular SO. Communication of a call-up against a SO to the Offeror constitutes acceptance of the SO to the extent of the services being ordered and causes a contract to come into effect. The parties to the contract that comes into effect when a call-up against a SO is made are Canada, as represented by PWGSC and the Offeror.

- 2.3 “Designated substance” is a substance defined as such in the (Ontario Occupational Health and Safety Act (OHSA).
- 2.4 “DSHM removal” refers to services for anticipated designated substances and hazardous materials (DSHM) removal or repair including Type 1, Type 2 (including glove bag) and Type 3 asbestos work operations; Type 1, Type 2 and Type 3a lead removal operations; and Level 1, Level 2 and Level 3 mould and bat and bird dropping removal as well as Type 1 and Type 2 silica work operations.
- 2.5 "Hazardous materials" are substances that could cause injury or death; or damage or pollute land, air, or water. In the context of this requirement hazardous materials includes but is not limited to mould, bat and bird droppings.
- 2.6 "Labourers" are expected to provide abatement services..
- 2.7 “Outside Regular Hours” refers to times when building occupancy loads are minimal, typically during evenings, weekends and holidays. While they can vary between buildings, evening hours are considered by PWGSC to be between 6:00 p.m. and 6:00 am.
- 2.8 "Senior Resources” are expected to assist job showings and coordinate work with the Technical Authority and/or Identified Users.
- 2.9 “Site Supervisors" are expected to provide supervision, abatement services and ensure labourers’ health and safety on site.
- 2.10 The NCA boundary for PWGSC is recognized as the Regional Municipality of Ottawa-Carleton boundary on the Ontario side and the Outaouais Regional Community on the Québec side.
- 2.11 "Work area" refers to the specific area in which work operations take place

### **3 Scope of Work**

#### **3.1 The scope of work includes:**

- 3.1.1 Asbestos abatement (repair and removal) as outlined in O.Reg 278/05, Q.Reg S-2.1 r.4, the PWGSC Asbestos Management Standard and COSHR.
- 3.1.2 Lead abatement as outlined in the Government of Ontario 2011 Guidelines – Lead on Construction Projects
- 3.1.3 Mould, bird and bat droppings removal as outlined in EACO Mould Guidelines 2010.
- 3.1.4 Silica control as outlined in the Government of Ontario 2011 Guidelines – Silica on Construction Projects.

- 3.2 Due to the nature of PWGSC-serviced facilities and occupants of these facilities, it should be expected that the majority of DSHM-related works would take place outside regular hours (evenings, weekends, including Statutory Holidays). Analysis of the previous Standing Offer showed 33% regular hours and 67% outside regular hours work over 210 projects.
- 3.3 The SO holders must be responsible for the proper containment, transportation and disposal of all waste materials generated during DSHM-related projects awarded against this Standing Offer, in accordance with O.Reg 347/90 as amended and Q.Reg S-2.1 r.4.
- 3.4 The SO holders may be required to transport and dispose of asbestos-contaminated wastes generated by other PWGSC building operations and maintenance activities outside of projects awarded against this Standing Offer. This can include samples, pieces of fallen Asbestos Containing Materials (ACM) materials, etc. These will be provided in double-bagged containers.
- 3.5 The SO holders may be required to reinsulate sections of piping following asbestos abatement.
- 3.6 Review of Existing Conditions
- 3.6.1 Every PWGSC facility containing asbestos materials maintains an Asbestos Management Plan (AMP), outlining the type, location and condition of known asbestos materials. The relevant information contained in the AMPs, along with project-specific Designated Substances Reports, if available; will be made accessible to the SO holder retained.
- 3.6.2 Call-ups made against the Standing Offer will include the necessary details regarding project size and schedule, as well as all known information with respect to building materials and any related projects occurring in the same proposed work area. Each individual call-up made against the Standing Offer will allow for a project site visit prior to the SO holder submitting cost estimates.
- 3.7 The SO Holder must provide the specified proof of Training / Certifications at the time of call-up **for ALL proposed Labourers and Site Supervisors** before the start of site work **including, but not limited to:**
- 1) Proof of Respirator Fit-test
  - 2) Proof of Workplace Hygiene Training for Type 1, Type 2 and Type 3 Asbestos Work Operations by a competent person, as defined in O. Reg 278/05 Section 19 and Q. Reg S-2.1 r.4 article 3.23.7 including but not limited to
    - a. The hazards of asbestos exposure
    - b. Personal hygiene and work practices, and
    - c. The use, cleaning and disposal of respirators and protective clothing, including
      - i. The limitations of the equipment
      - ii. inspection and maintenance of the equipment

- iii. proper fitting of a respirator, and
- iv. Respirator cleaning and disinfection
- d. the employer's general obligations
- e. the worker's rights and obligations
- f. the tasks to be carried out and the equipment and tools to be used
- g. safe working methods and procedures
- 3) Workplace Hazardous Materials Information Systems (WHMIS)
- 4) Proposed labourers for asbestos abatement must have successfully completed the Asbestos Abatement Worker Training Program approved by the Ministry of Advanced Education and Skills Development.
- 5) Proposed site supervisors for asbestos abatement must have successfully completed the Asbestos Supervisor Worker Training Program approved by the Ministry of Advanced Education and Skills Development.

## 4 Client Support

4.1 The PWGSC authority that issues a call-up for services against the Standing Offer will provide the following information, in order to supply adequate project information and details to successfully complete the requested service:

- 4.1.1 Designated Substances Report specific to the proposed project, if one is available
- 4.1.2 Specification sections specific to the proposed project, if specifications are available
- 4.1.3 Access to all available and pertinent Asbestos Management Plans
- 4.1.4 A building or floor plan of the proposed project location
- 4.1.5 A proposed schedule, which shall include the schedule of any other engineers, trades-people, private-sector contractors, private-sector consultants requiring access to the work area.
- 4.1.6 Work area-specific parameters such as noise or odour controls
- 4.1.7 Access to Building Authorization for project-specific work areas, with proper advance notification to appropriate building security services.
- 4.1.8 The services of building technicians and their support staff with respect to electrical systems, water systems, HVAC systems or any other building system requiring access, deactivation, temporary shut-down or emergency interventions during the planning and implementation of proposed projects.
- 4.1.9 Any additional federal legislative, regulatory or departmentally mandated requirements specific to the proposed project.
- 4.1.10 Information on any other known health and safety-related hazard associated with the proposed project, including but not limited to:
  - 4.1.10.1 Fall arrest requirement for work above 6 feet in height
  - 4.1.10.2 Confined Spaces assessments and requirements
  - 4.1.10.3 Building systems requiring deactivation prior to commencement of work

- 4.2 At no time will the SO holder require that labourers work alone on any proposed PWGSC project under the Standing Offer.
- 4.3 PWGSC may retain an independent, third-party consultant as Departmental Representative to provide quality assurance or quality control inspections for asbestos-related work awarded under the Standing Offer. The SO holder will take the direction and recommendation of the Departmental Representative as direction from PWGSC itself. This Departmental Representative may be required to inspect asbestos-related works resulting from call-ups made against the Standing Offer for adherence to applicable legislations or regulations, may be requested to provide air sampling relating to the asbestos-related work at hand, and may also request the SO holder to stop work or alter work parameters at any given time, provided that PWGSC is made aware in advance.

## **5 Invoicing**

- 5.1 All invoicing against this Standing Offer shall indicate the number of man-hours, all applicable billable rates, the costs for the total materials utilized for each project, and the costs for transportation and proper disposal of all wastes generated during each project. They shall include invoices from sub-contractors and rental equipment.
- 5.2 In the event that the rental of equipment or tools is required to satisfy a call-up for services against the Standing Offer, the SO holder must notify the technical authority in advance of providing a cost estimate, providing justification for the rental of equipment or tools in writing. The cost of the rental of tools or equipment must be included as a line item within the cost estimate provided by the SO holder.
- 5.3 PWGSC considers billable materials to consist of disposable equipment or materials used during the course of a single project. Reusable equipment or materials shall not be included on invoices against the Standing Offer.

## **6 Responsibilities and Deliverables**

- 6.1 Meeting and maintaining the required security requirement is a condition of the Standing Offer.
- 6.2 PWGSC shall not be held responsible for security clearances of personnel that expire during the course of the Standing Offer, nor for the re-application of required security clearances. No building authorization access shall be granted to personnel not possessing a valid level of security clearance. No security escorts shall be provided for personnel not possessing a valid level of security clearance.

- 6.3 The SO holder must provide the required protective equipment in accordance to OHSa guidelines at no additional cost to the call-up.

## **7 Acronyms**

AMP – Asbestos Management Plan  
CCA – Canadian Construction Association  
CNESST – Commission des normes, de l'équité, de la santé et de la sécurité du travail  
DSHM – Designated Substances and Hazardous Materials  
EACO – Environmental Abatement Council of Ontario  
ES – Environmental Services  
HEPA – High Efficiency Particulate Air  
HVAC – Heating, Ventilation and Air Conditioning  
MTCU – Ministry of Training, Colleges and Universities  
NCA – National Capital Area  
OHSa – Occupational Health and Safety Act  
O.Reg – Ontario Regulation  
PPB – Parliamentary Precinct Branch  
PWGSC – Public Works and Government Services Canada  
Q.Reg – Québec Regulation  
QA/QC – Quality Assurance/Quality Control  
RBQ – Régie du Bâtiment du Québec  
SO – Standing Offer  
SOA – Standing Offer Agreement  
WSIB – Workplace Safety Insurance Board
