AMENDMENT 10

This amendment is issued in response to the following bidder question.

Question:

With regard to the above requirement to provide “one document from each of two of the listed types”, we do not have ready access to such documents because they were written by our proposed resources either: (i) when they were employed by other companies to fulfill obligations of prime contracts between Canada and the other companies; or (ii) written by our proposed resources in support of contracts for other customers where for contractual reasons we may not have authorization to release the content.

In order to meet this requirement, would Canada agree that the Bidder may submit a copy of the reference document table of contents (or similar), in order to illustrate the high level contents, structure, and complexity of the samples? This would be followed by the submission of an excerpt of the documents (i.e. not the entire documents), with customer and program-specific information redacted, should the bidder be selected for a contract award.

Answer:

For this Criterion DRDC will accept the bidder's submitted proposal with a copy of the reference document's “Tables of Contents” accompanied with excerpts of the documents with customer and program-specific information redacted.

All other terms and conditions remain unchanged.
