Amendment 001 of Request For Standing Offer (RFSO) 21C31-203587/A is raised to respond to questions received and to extend the closing date as follow:

A. SOLICITATION EXTENSION

At: Request for Standing offer Cover Page,

Delete: Solicitation Closes at 02:00 PM – on 2022-01-20

Insert: Solicitation Closes at 02:00 PM – on 2022-02-22

B. QUESTIONS & ANSWERS

- Q1. Is it acceptable to provide rolls that are 50 yards in length instead of 100 yards ?
A1. Yes, this is acceptable as long as the rolls are **no less than 30 meters** (32.8 yards).
- Q2. Would you please share call up reports for previous purchase of Fabric for Blanket?
A2. There are no record available as this our first procurement process for this specific fabric. Please note that all publicly available information on previous purchases is posted on buyandsell.gc.ca.
- Q3. What will be the individual minimum call-up for each order?
A3. There is no established minimum on either quantities or dollar value per call-up.
- Q4. How many total call-ups will you be placing in one year?
A4. At this point it is unknown. Bidder are advised to prepare their offer based on the estimated quantities included in the solicitation documents.
- Q5: Could you please confirm what UV finish needs to be applied to this fabric, if any. As per pg. 27 Annex A
A.1 TECHNICAL REQUIREMENT
1.MATERIAL DESCRIPTION
f. The fabric must be resistant to mold, to U.V light and must be fire retardant.
- All other finishes are clear and the tests needed are there, but we cannot see details for UV Light. Meta aramid fabrics are inherently resistant to UV and will not degrade with exposure to UV, so maybe there is nothing to do.
Can we have the technical feedback on the above?
- A5: Please see Annex A (Page 26) under the testing requirement section. Please refer to the 'Evaluation and Acceptance procedure CAN/CGSB 4.2 ISO – ASTM' for more information regarding the UV light and mold (the main focus is on mold). Please see the attached table below.
