AMENDMENT 004

Amendment 004 is raised to make the following changes and answer the questions below:

DELETE:

APPENDIX A-1 (revised) in its entirety.

APPENDIX A-2 (revised) in its entirety.

APPENDIX A-3 in its entirety.

ADD:

APPENDIX A-1 (revision 2)

APPENDIX A-2 (revision 2)

APPENDIX A-3 (revision 2)

DELETE:

ANNEX B – BASIS OF PAYMENT (revised) in its entirety.

ADD:

ANNEX B – BASIS OF PAYMENT (revision 2)

QUESTION 1:

Step 3 of the water testing procedure states that the faucet must be submerged in a cap full of chlorine bleach for 30 seconds. Would this be bleach straight from the container or would we be diluting it first?

ANSWER 1:

Straight from the container, no dilution.

QUESTION 2:

Locations are broken down into NL East, NL West and Labrador.

There are discrepancies with particular locations grouped into the wrong jurisdiction as follows:

NL East Locations

Location 2, 3, 4 (Bay D'Espoir) should be under Western

Location 21 and 22 (Conne River) should be under Western

Location 26, 27, 28 and 29 (Harbour Breton) should be under Western

Location 38, 39, 40, 41 and 42 (St. Anthony) should be under Western

NL West Locations

Location 27, 28, 29 and 30 (Fogo) should be under East

Location 32, 33, 34, 35 and 36 (Placentia) should be under East

ANSWER 2:

Bay D'Espoir locations have been changed from Eastern to Western.

Conne River locations have been changed from Eastern to Western.

Harbour Breton locations have been changed from Eastern to Western.

The 5 sites in St. Anthony were already changed from Eastern to Western in Amendment 001.

Fogo locations have been changed from Western to Eastern.

The 5 sites in Placentia were already changed from Western to Eastern in Amendment 001.

Please note the following additional changes:

- Removal of DBP testing from New-Wes-Valley (Appendix A-1)
- Addition of one location in Bay D'Espoir with one round of all four tests required (Appendix A-2)
- Removal of DBP testing from all sites in Western NL except for Bay D'Espoir and Harbour Breton (Appendix A-2)
- Removal of DBP testing from Labrador (Appendix A-3)

Appendix A-1, A-2 and A-3 have been updated to reflect these changes.

QUESTION 3:

Due to the geographic locations of some of the Labrador sites, it is literally impossible to have samples delivered to a lab within 24 hours of sample collection. Some of the locations include:

- Cartwright
- Hopedale (fly in only)
- Nain (fly in only)
- Mary's Harbour

What would happen if some of these samples did not make the 24-hour cut off time?

ANSWER 3:

If the lab allows specimens to be delivered within a 30-hour time window, these results will be accepted.

All other terms and conditions remain the same.

Les autres modalités restent les mêmes.

Lead Analysis	Sample	58 ⁽²⁾⁽³⁾⁽⁴⁾⁽⁵⁾	\$	\$
DBP Analysis	Sample	24	\$	\$
Total Cost for Newfoundland East for 2022				\$

- 1) The Sample Collection cost includes all expenses including travel, mileage, accommodations, meals, courier, etc. per building.
- 2) The Sample Collection Estimated Quantity includes 5 sample collection fees to cover additional “if required” site visits in order to cover appointments that could not be honored by RCMP for operational reasons or if requested by the RCMP Project Authority. The totals also include an additional 5 “if required” samples for bacteria, 3 for chemical analysis and 5 for lead analysis to be requested as specified by the RCMP Project Authority.
- 3) The Sample Collection Estimated Quantity includes 5 QA/QC samples for bacteria analysis, 3 QA/QC samples for chemical analysis and 5 QA/QC samples for lead analysis to be collected at the discretion of the contractor. These samples shall be duplicates of samples specified in Appendix A-1 of the Statement of Work.
- 4) Samples for lead analysis should be collected in conjunction with a routine sampling site visit. The sample will be analysed for lead only.
- 5) Breakdown of numbers:

Sample Collection	48 + 5 for possible missed appointments + 5 “if required” = 58
Bacteria Analysis	48 + 5 “if required” + 5 QA/QC = 58
Chemical Analysis	31 + 3 “if required” + 3 QA/QC = 37
Lead Analysis	48 + 5 “if required” + 5 QA/QC = 58
