

Amendment No. 003

ATT003

#	Reference	Question	Response
1a	Arch Section 7/A9.0 Staff Washroom Bench	a:What material is the 380mm x 431mm box under the lockers made from, is it a millwork item, if so need millwork material specs, finishes etc?	Lockers are to be updated to have integrated bench. These benches are no longer to be millwork item. Detail 7/A9.0 is to be removed from millwork drawings. See attached SK-01 in Addendum 01 to Set 02.
1b		b:This 380mm x 431mm box under the lockers, need more and better dimensioned detail dwgs if a millwork item, including how box is secured to the wall/floor, and how are metal bench slat supports(S&l by others) fastened to the box securely and properly to support the load applied when someone sits down to prevent the metal brackets from ripping out. It is unusual to have metal support brackets fastened to a hollow box like this, usually metal brackets are fastened to a filled block wall with epoxy'd in fasteners	Lockers are to be updated to have integrated bench. These benches are no longer to be millwork item. Detail 7/A9.0 is to be removed from millwork drawings. See attached SK-01 in Addendum 01 to Set 02.
2		Please provide sizes & locations of the required Entrance Mats (Spec Section#10 80 00)	Location is at main entry door C01X (Vestibule) to suit width of door and screen (1700mm) and corridor width (1560mm) See attached SK-02 in Addendum 01 to Set 02. Contractor to verify on site.
3		Could you please clarify whether the Temporary Access Road is to be left in place or removed under this contract?	Temporary (improved) access road and any gates or other related infrastructure to remain in place.

All other terms and conditions of the Invitation-to-Tender remain unchanged.
