Solicitation amendment #003 is raised to; re-post Q3 and A3 as part of the question was missing, revise the estimated quantities due to a decrease in total demand and extend the closing date.

**Q3:** Under section 1.11(g): it is stated that "To ensure security of supply, Canada, at its sole discretion, reserves the right to limit a Bidder's aggregate AIV contract quantities, including those awarded under this solicitation to 60% of Canada's estimated public market AIV demand.

Does this include flu vaccines procured through other AIV contracts (including specialized influenza vaccines) as part of the calculation of the 60% doses?

**A3:** Canada's estimated public market AIV demand is defined under 1.11 Basis of Selection, sub-section (g), paragraph 2. The 60% limitation does not include specialized influenza vaccines such as live attenuated, cell derived and those specifically targeted for persons aged 65 years and older.

**REPLACE Part 1 – Information and Instructions, 1.1 Summary with the following:**

**1.1 Summary**

This bid solicitation is for an estimated requirement of:

- (a) **6,125,000** doses of Quadrivalent Influenza Vaccine (QIV) with an age indication of 6 months of age and older (PFS Item 1a and MDV Item 1b)
- (b) **1,340,000** doses of Quadrivalent Influenza Vaccine (QIV) with an age indication of 5 years of age and older (PFS Item 2a and MDV Item 2b)

Up to a maximum of two (2) contracts will be awarded for each items 1a, 1b and 2b. One contract will be awarded for item 2a. Resulting contracts will be from date of award to March 31, 2023 plus two additional one-year option periods.

The quantities provided below are only an approximation of requirements given in good faith and are subject to change prior to Contract award. Each Identified User reserves the right to alter quantities or to withdraw from participation up until Contract award. A significant change in the Requirement for an item may result in a decision to re-tender that item.

Item	Format	Contract Term (Year 1) 2022-2023	Option Year 1 (Year 2) 2023-2024	Option Year 2 (Year 3) 2024-2025
1a - QIV (6mo+)	PFS	1,725,000	1,725,000	1,750,000
1b - QIV (6mo+)	MDV	4,400,000	4,400,000	4,400,000
2a - QIV (5yr+)	PFS	340,000	340,000	340,000
2b - QIV (5yr+)	MDV	1,000,000	1,000,000	1,000,000

**REPLACE Part 1 – Information and Instructions, 1.11 Basis of Selection, sub-paragraph (g) with the following:**

- (g) To ensure security of supply, Canada, at its sole discretion, reserves the right to limit a Bidder's aggregate AIV contract quantities, including those awarded under this solicitation to 60% of Canada's estimated public market AIV demand.

Canada's estimated public market AIV demand is the total of publicly funded provincial, territorial and federal AIV demand (excluding specialized influenza vaccines such as live attenuated, cell derived and those specifically targeted for persons aged 65 years and older), which is estimated at 11,465,000 doses.
