Amendment number 001 is raised to answer supplier questions:

Q1: Is it possible to visit the site?

A1: Due to Covid restrictions and timelines of the solicitation no site visits will be offered.

Q2: Please supply current schematic diagram of water system, tank dimension details, and supply specification sheets for the distribution pump(s).

A2: The pump, the tank and rest of the system is not being replaced at this time. Only the reverse osmosis (RO) part of the system is being replaced. As long as the RO system meets the specifications provided, it will work with the polishing system/tank/pump etc.

Q3: Please supply specifications on UV.

A3: 254nm inline UV rated up to 10GPM.

Q4: From our knowledge of the Rio's systems, the function "Smart Technology" is a marketing trademark by Millipore. So, any other vendor's system will not adorn the "Smart Technology" tag, but will offer similar functions. Would that be acceptable?

A4: Yes, same technology by any other names is acceptable.

Q5: The required RO capacity of 60L/h is an capacity required at what temperature?

A5: Room temperature (~20C)

All other terms and conditions of the Request for Proposal remain unchanged.
