

# Inland Ferries

## Capital Plans

Marine Procurement Outlooks – November 3, 2021

Callum Campbell – Director, Inland Ferries

Ministry of  
Transportation  
and Infrastructure

# AGENDA

---

- Inland ferries overview
- Current capital projects
- Future possibilities

# Inland Fleet

## Ferries and Terminals

# Our Challenge

## Remote-site building

- 5 new ferries since 2014
- Design-build, RFQ-RFP process
- To date, all vessels built in BC.

# Kootenay Lake Ferry Service Improvements

## New 60-car ferry

- Now under construction in Nelson BC
- Electric-ready
- In-service in 2023

# Construction Photos

## Kootenay Lake Ferry

# Inland Ferries Electrification

## CleanBC

- All inland ferries will be electric by 2040
- One electric conversion pilot project in-progress

# Potential Future Plans

- 2010: mean vessel age = 41 years
- 2021: mean vessel age = 24 years
- Planning for electrification, mid-life renewal, and replacement

Ministry of  
Transportation  
and Infrastructure
