

**Questions and Answer #1**  
**RFP 202200482**  
**Prevalence of Sexual Coercion and Violence (SCV) in Federal Custody**

**Question 1**

In table 1 of Appendix A (data collection - p. 51), the RFP refers to an approved online survey tool. Can the Crown specify if they will provide an online survey tool or will expect suggestions from suppliers?

**Answer 1**

We are expecting suggestions from suppliers, but please note that the software must meet the Government of Canada's Standard on Web Accessibility criteria and be approved by the Government of Canada. On our end, we are also scrutinizing which software meet the requirements. Once the contract is awarded, this will be discussed and finalized at the initial meetings for Phase I (Methodology Development). Public Safety equipment (e.g., a laptop, a tablet), including approved survey software, will be provided for the survey administration.
