

Solicitation 1000237852 Q & A 1

Question 1:

For chairs A1, A2, A3 & A4

Will the client accept a bleach cleanable elastomeric mesh for the back and a bleach cleanable medical grade vinyl for the seat?

Answer 1:

Yes

Question 2:

For side chairs A5, A6, A7, A8 & A9

Under finish options "other" has been selected but there is no notation of what "Other" refers to. Is the client looking for poly seat and back for these items?

Answer 2:

Must be a wipeable material, easy to disinfect. Polymer, medical grade vinyl, bleach cleanable elastomeric mesh are the options I can see acceptable.

Question 3:

Table A4, Drafting Style Chair - NSA, for Edmonton, it's not recommended per BIFMA to have a stool at this height with a depth adjustable seat and a multi-position tilt as it creates a top-heavy imbalance that can cause the chair to tip for users at 275 lbs or more. Please accept a fixed non-tilt option so we can safely meet this requirement.

Answer 3:

The posting states that the required goods must be on SA
