AMENDMENT 3

This amendment is issued to reflect the following.

1. Under Bid Closing

Delete: March 3, 2022 2:00 p.m. AST
Insert: March 10, 2022 2:00 p.m. AST

2. In Response to Bidder Questions

Question 1:

Can you confirm the make and model of the TV's on site? We just need to confirm if Qam tuner is needed to support a HD headend solution.

Answer 1:

The make of the televisions in Juno Tower is Samsung Model HG40NF690G.

The make of the televisions in Tribute Tower is LG Model 43LF5400ub.

Question 2:

Can you please advise if the channels listed in section 15.0 Package and Channel Requirements are mandatory? There are a few channels including TV1 and TV5 that are exclusive to Bell and wouldn't be offered by another vendor.

Answer 2:

TV1 and TV5 are not required/mandatory.

Question 3:

Can you please confirm the existing setup is distrusted via a headend or are there individual receivers in each room?

Answer 3:

There are receivers in Tribute.

Question 4:

Can you confirm if Satellite TV services would be acceptable? The distribution is still coaxial so no change required for your internal wiring. Just the delivery of the services is the difference. Majority of DND/Correctional facilities utilize Satellite TV and we can provide references if you need.

Answer 4:

RPOPS would need the request for a SAT dish install sent to their requirements officer. They would need to review the installation plans and locations, and if it involves installation on the building, they'd have to abide by any required penetration of the building processes/approvals, etc.

Question 5:

Just adding up the outlets in Juno Tower When I add up the floors I come to 188 outlets But above it I'm seeing 160. I know bedrooms have a TV and you also may have common areas Can you confirm the numbers for me?

Answer 5:

Juno Tower has 158 active outlets.

All other terms and conditions remain unchanged.
