The amendment to the bid solicitation is to address the enquiries received:

Response(s) (R) to Question(s) (Q):

Q1. Task 4a in the Statement of Work refers to a survey of the Canadian WTE industry. Can you please provide further details regarding the definition of “survey”? Is the “survey” referring to direct conversations/interviews with stakeholders, or does it refer to the development of a questionnaire that can be emailed to participants and completed independently? This information is requested as it has an impact on the required level of effort. If the definition of “survey” is the former, how many interviews (a range is sufficient) does ECCC anticipate being completed as part of Task 4a?

R1. The “survey” in Task 4a refers to the development and deployment of a questionnaire that can be completed by participants independently. There might need to be follow-up direct communication with respondents to clarify their answers.

All other terms and conditions of the Bid Solicitation remain the same.
