PART 1 - GENERAL1.1 SCOPE OF WORK

- .1 The Electrical Contract includes all electrical work at the site including but not limited to:
1. The removal of all existing electrical equipment, devices, wiring, conduit, etc. as indicated on electrical drawings.
 2. Supply and installation of new shore power pedestal, coverplates, receptacles, labels, etc. as indicated.
 3. Supply and installation of new conduit and fittings for a complete installation.
 4. Installation of light fixtures on wooden poles as indicated.
 5. Supply and installation of conduits and wiring to power pedestal and light poles as indicated.
 6. Supply and installation of new wooden poles as indicated.
 7. Whenever it is proposed to make a change or changes in the design, agreement or type of equipment called for in this specification, the electrical contractor shall estimate the cost of same and submit in triplicate detailed itemized estimates of the costs of all apparatus, materials and labour entering into the change or substitution.
 8. All equipment and exposed non-current carrying metal, conduits and parts to be permanently and effectively grounded to meet minimum requirements of the CEC section 10 and as indicated on drawings and further specified. Standards set either by drawings or specifications which are above those covered by the C.E.C. section 10 are not to be reduced
