## **Amendment 001**

This amendment is raised to provide responses to bidder questions.

### **A. Questions and Answers**

- Q1.** My company is a Sole Proprietorship. The capabilities are within Audit and/or Consult, aimed at Conformity and Compliance proceedings (such as QA/QC, Monitoring/Survey/Inspection, Government Programs, Regulatory Affairs, etc. similar). Would Parks Canada consider the Scope of Service to be covered from a single person? Alternatively - would you consider a Complex/Consolidated Team of Suppliers (in which my company to be part of)?
- A1.** Either a sole proprietorship, company, or joint venture with multiple companies would be acceptable. The Bidder must identify how they propose to meet the criteria requested under the technical criteria under Annex F. If multiple companies, the proposal must clearly identify the main contractor, the subcontractors (if applicable), the roles of the team member(s), and the experience as requested.
- Q2.** Will the work be limited to a Desk Study (I.e. on already available data w/o physical visits in the said region)?
- A2.** Correct, the work will be a desktop only study conducted from current and historical data that Parks Canada will provide.
- Q3.** Will any physical visit(s) in the said region be required? If yes - how many, on what frequency and coverage?
- A3.** No, all work is expected to be remote only with no onsite work required. This includes both the required services and the potential optional services as defined.
- Q4.** Is it to expected that suggestions are to be made in order to capture Real Time data (or at least update/verification of the already existing data)? If yes - is it to expect that pilot deployment (of necessary technology) must be actually done, moreover - validated (for operational compliance)?
- A4.** No, there is no requirement to deploy technology and/or monitor active data capture.

**ALL OTHER TERMS & CONDITIONS REMAIN UNCHANGED**
