Description of Work:

The Canadian Wildland Fire Information System of Natural Resources Canada has a requirement for the provision of specialized information management/information technology (IM/IT) professional services resources, on an “as and when requested” basis, to support the delivery of IT expertise and related products and services.

This Statement of Work (SOW) is for consulting, technical, and design services to provide solutions in the form of a series of deliverables and transformation activities to operationalize the CWFIF to its full potential. The engagement will assess, develop, and implement cloud-optimized technical and business solution components for CWFIF and its partners building upon the previous, where applicable, CWFIF Solutions. The solutions must include advanced technology with a view to augment and enhance automation of processes and tasks. The selected vendor will work with NRCAN and other government stakeholders to build the solutions.

- Bidders must submit a bid for all resource categories
- The work is currently not being performed by a contracted resource

Security Requirement:	Common PS SRCL #06 applies
