This amendment is raised to respond to questions and answers and to extend the closing date as follows:

Questions and Answers:

Question 1:

Training

Would you accept a virtual training as there is no need for the site training ?

Answer:

No, virtual Training is not acceptable. Practical training must be provide onsite in Burlington, ON for 4 DFO staff. Onsite training provides a hands on experience and allows for local issues to arise and acceptable solutions to be found with experienced manufacture representatives while operating in our environment. Online training does not provide this experience.

Question 2:

Lighting

Regarding d. The ROV must have minimum 2 LED floodlights (400 Lumens total), upgradable with additional lighting. Please note the unit we are offering is delivered with one light 3300 lumens and CRI level on 90 but can be upgraded and add additional lightings if needed in the future. Would that be acceptable

Answer:

No. Lighting must be provided by at least 2 lights as this is can improve the camera image by reducing the effect of shadows and offer improvements in the appearance of image depth and textures.
