

Question and Response # 2

For RFP # 100017020

Q1) Our company is interested in participating in the Accessibility Testing: Stream 2: Test WEB, eLearning Products (HTML), Learning Platforms and Native Mobile Applications (100017020).

Can you please tell me if remote work is possible for this purchase?

R1) Yes, each company can follow their own policy on telework as long as the telework location remains in Canada.

Q2) In regards to Mandatory requirement MC2 (Stream2), our invoices do not typically go into the level of detail to describe the standard and WCAG success criteria levels. Would the Crown accept invoice stating the services provided were Accessibility Conformance Testing?

R2) As long as the invoices clearly state that a minimum of 60 days of Accessibility conformance testing work has been performed on documents (Word, PPT, PDF) within the last two (2) years, we will accept.

All other terms and conditions remain the same.
