Challenge-Based Standing Offer Solicitation (CBSOS) - Initial
For
Cloud-based Security Services (CSS)

Solicitation No.	CSS092421B	Date	April 8, 2022
------------------	------------	------	---------------

GCDocs File No.	101691102	Amendment No. 8
-----------------	-----------	-----------------

Issuing Office	Shared Services Canada 180 Kent Street, 13 th Floor Ottawa, Ontario K1P 0B5	
Standing Offer Authority (The Standing Offer Authority is the person designated by that title in the Solicitation, or by notice to the Offeror, to act as Canada's "Point of Contact" for all aspects of the Solicitation process.)	Title	Christopher Bromfield
	Telephone No.	(343) 550-3959
	Email Address	christopher.bromfield@canada.ca
<u>Closing Dates and Times</u> 1. Invitation to Qualify Solutions 2. Solicitation Closing - SP/OEM 3. Solicitation Closing - Resellers	1. April 11, 2022 at 15:00 2. (To be Determined) at 15:00 3. June 30, 2022 at 15:00	
Email Address for Submitting Offers	christopher.bromfield@canada.ca	
Time Zone	EDT	
Destination of Goods/Services	See Herein	
Vendor/Firm Name and Address	Téléphone No. :	
Name and title of person authorized to sign on behalf of Vendor/Firm (type or print)	Name/Titre	
	Signature	Date

AMENDMENT NO. 8

Amendment No. 8 has been issued to:

1. Posting of the ‘*CSS – Pre-Screening What We Heard Presentation*’ deck to *Buy & Sell*.
2. Provide responses to question(s) received from potential Offerors – **see questions 4-5.**

1. **Provide responses to questions received from potential Offerors – see questions 4-5.**

Q&A No.	Amd. No.	Document(s)	Question	Response
1	06	Annex A - Invitation to Pre-screening Solutions – Tables	<p>Q2 - For the requirement "WR2: Deployment Readiness: CCCS Assessment Process" (10 Points)</p> <p>The Solution OEM should provide evidence that the proposed CSS solution has completed or is in the process of completing the Canadian Centre for Cyber Security (CCCS) Cloud Service Provider (CSP) Information Technology (IT) Security Assessment Process (ITSM.50.100) (https://cyber.gc.ca/en/guidance/cloudservice-provider-information-technology-securityassessment-process-itsm50100). The Solution OEM should provide documentation from CCCS in the form of a letter, an email or a report that confirms that the process is complete or is in progress.</p> <p><i>Will the Crown please confirm that all solution providers will need to meet PBMM data residency requirements (as assessed by CCCS) in order to be considered for a Standing Offer? In the past, this has been a mandatory requirement, why is it only a rated requirement at this time?</i></p>	<p>At this time, CSS solutions are expected to meet Protected B/Medium/Medium (PBMM) requirements in order to be used in production environments that process PBMM data.</p> <p>The WR2 requirement is rated for the purposes of the pre-screening activity only.</p>
2	06	Annex A - Invitation to Pre-screening Solutions – Tables	<p>For the requirement "WR5: Data Residency" (Up to 10 Points)</p> <p>The Solution OEM should provide evidence that the CSS solution is currently deployed in an</p>	<p>At this time, CSS solutions are expected to meet PBMM requirements in order to be used in production environments that process PBMM data.</p>

			<p>environment where the data and control planes of the solution reside within Canada. The Solution OEM must provide documentation that confirms the solution satisfies this requirement.</p> <p><i>Will the Crown please confirm that all solution providers will need to meet PBMM data residency requirements (as assessed by CCCS) in order to be considered for a Standing Offer? In the past, this has been a mandatory requirement, why is it only a rated requirement at this time?</i></p>	<p>The WR2 requirement is rated for the purposes of the pre-screening activity only.</p>
<p>3</p>	<p>01 & 04</p>	<p>(a) Annex A - Invitation to Pre-screening Solutions – Tables</p> <p>(b) Attachment A - Statement of Challenge</p>	<p>M1 – Cloud-based perimeter security services f) Recognize file transfers via SCP and SFTP, to be inspected by other security services, such as an SSH Inspection</p> <p><i>Will the crown please change this to a rated requirement or remove it completely? It is our opinion that this is a very niche requirement and use case. Since this will be a standing offer for very broad cloud security requirements, this niche feature may eliminate some OEMs and should therefore not be a mandatory requirement.</i></p>	<p>Yes, the Crown will remove <i>M1 – Cloud-based perimeter security services (f) Recognize file transfers via SCP and SFTP, to be inspected by other security services, such as an SSH Inspection</i> from Annex A - Invitation to Pre-screening Solutions – Table 2: Mandatory Requirements (pg. 16).</p> <p>NOTE: <i>M1 – Cloud-based perimeter security services (f) Recognize file transfers via SCP and SFTP, to be inspected by other security services, such as an SSH Inspection</i> will now be added as NCR27 to the ‘Non-Compulsory Requirement’ section of the Attachment A - Statement of Challenge (page 14-16).</p> <p>SUMMARY:</p> <p><i>Annex A - Invitation to Pre-screening Solutions – Table 2: Mandatory Requirements</i></p> <p>REMOVE (pg. 10): M1– Cloud-based perimeter security services</p> <p>The solution must provide cloud-based perimeter security services. The solution OEM must demonstrate that the CSS solutions provides the following list of perimeter security services:</p>

				<p>f) Recognize file transfers via SCP and SFTP, to be inspected by other security services, such as an SSH Inspection.</p> <p><i>Attachment A - Statement of Challenge.</i> INSERT (pg. 16): <u>NCR27</u> - Cloud-based perimeter security services</p> <p>The solution must provide cloud-based perimeter security services. The solution OEM must demonstrate that the CSS solutions provide the following list of perimeter security services:</p> <p>f) Recognize file transfers via SCP and SFTP, to be inspected by other security services, such as an SSH Inspection.</p>
4	01	(a) Annex A - Invitation to Pre-screening Solutions – Tables	In terms of Layer 7 protection, can the Government of Canada clarify the protocols involved in use case 4.a/b between end users and IoT devices?	Canada cannot confirm the protocols being used by IoT devices at this time.
5			Reference C2: SaaS Solution Certification: Would the following definition of SaaS be acceptable: <i>SaaS is a software distribution model where the software is (remove owned) hosted and managed remotely by a single provider. The provider delivers a software service based on one set of common code and data definitions that is consumed over the internet in a one-to-many model by all contracted customers at anytime on a pay-for-use basis or as a subscription based on use metrics.</i>	Canada has reviewed the question, and will not be changing the definition of SaaS

All other terms set forth in the CBSOS shall remain unchanged and this Amendment No. 8 and the CBSOS shall be deemed a single, integrated document for all purposes.
