19. Pricewaterhouse Coopers LLP
20. Raymond Chabot Grant Thornton Consulting Inc.
21. Systemscope Inc.

Description of Work:

As part of its planning for possible future activities and collaboration with different stakeholders, the Canadian space Agency is requesting the services of experienced business consultant (resource or team) to perform a socio-economic study on the benefits of measuring green-house gases, air quality and providing meteorological services in the North.

The scope is to quantify and qualify the potential socio-economic benefits to Canadians of satellite-derived information on meteorological, greenhouse gas and air quality measurements over Canada's northern regions. This will be done by using a 'value of information' framework and other relevant methodologies such as cost-avoidance analysis, while employing a Gender-Based Analysis + (GBA+) lens, all based on international best practices in order to assess the impact a potential Arctic Observing Mission could have for Canada.

Contract Authority

Contracting Authority: Valérie Geoffroy
Phone Number: 438-364-2385
E-Mail: valerie.geoffroy@asc-csa.gc.ca

Inquiries

Inquiries regarding this RFP requirement must be submitted to the Contracting Authority named above. Request for Proposal (RFP) documents will be e-mailed directly from the Contracting Authority to the Qualified Supply Arrangement Holders who are being invited to bid on this requirement. BIDDERS ARE ADVISED THAT "BUYANDSELL.GC.CA" IS NOT RESPONSIBLE FOR THE DISTRIBUTION OF SOLICITATION DOCUMENTS. The Crown retains the right to negotiate with any supplier on any procurement. Documents may be submitted in either official language.

NOTE: TSPS is the mandatory method of supply for the provision of non-informatics professional services, both task and solutions based, at or above the Canada Korea Free Trade Agreement (CKFTA) threshold. This method of supply covers five core areas of expertise that are commonly and nationally used: human resources services; business consulting/change management; project management; real property project management services; and technical engineering and maintenance services.
