Description of Work:
Innovation, Science and Economic Development Canada has a requirement for one (1) Project Leader level 3 (Java Team Lead). The Senior Project Leader/Java Team Lead will support and/or lead various Digital Services Division projects and initiatives in the development and maintenance of Java applications. Duties and deliverables may include but are not be limited to the following:

- Analyze user requirements to determine system features and functionality;
- Work with business analysts and stakeholders to design and plan for architecture;
- Work with the Java development team to guide them in their development and design efforts;
- Meet project schedules and ensure the Java solution meets the technical specifications and design requirements;
- Oversee the design, development, testing, deployment and enhancements of web-based Java applications to support business requirements in an Agile environment using tools such as Java JEE, Eclipse IDE, Tomcat, JBoss, SpringBoot, Hibernate, Spring Framework, MVC patterns, RDBMS/SQL, GIT, etc.;
- Oversee the design, development, testing, deployment and enhancements of solutions on the ISED cloud service offerings which includes AWS cloud and the OpenShift Container Platform to support business requirements;
- Oversee and drive best practices, quality and consistency within the design and development phases;
- Ensure that ISED application life cycle methodologies, timelines and project plans are followed;
- Lead and/or participate in agile ceremonies such as scrum stand ups and sprint planning;
- Present application demos to stakeholders as required;
- Oversee the development of RESTful web services between applications;
- Oversee the test-driven development using tools such as JUnit;
- Ensure the use of continuous integration tools such as Jenkins/Hudson, Bamboo, or Cruise Control;
- Ensure the use of the build automation tool Maven for Java applications;
- Identify production and non-production application issues;
- Provide guidance to support teams on debugging Java application issues and bug fixes;

- Bidders must submit a bid for all resource categories
- There are NO contractors performing the services described in this RFP.
