Amendment 006

- a. Extend the tender period;
- b. Distribute answers from questions we received.

a. Extend the tender period

The closing date for solicitation 5P468-21-0264/A, titled "Infrastructure Master Plan, Sable Island National Park Reserve", is extended from April 21, 2022 until April 28, 2022.

If you have already submitted your proposal, you are invited to send us your revisions, where necessary, by email at the following address: soumissionsami-bidsrpc@pc.gc.ca, or by fax at 1-855-983-1808. Please indicate the solicitation number on all correspondence.

b. Questions and Answers

- Q1. Page 7, Section 7.2 of Addendum 4 states that the following items shall be included as part of the site analysis and site planning:
- a. Environmental and meteorological context and conditions;
 - b. Site features, historical and cultural resources;
 - c. Archaeological features;
 - d. Environmental features, wild life and natural habitats
 - e. Environmental Risk Management plan

Is the intent that the successful bidder will complete this study work related to the above noted items, or will background information for consideration and incorporation into the conceptual design be provided by PCA?

- A1. With the exception of the meteorological context conditions, information on the above items will be provided by PCA.

- Q2. Have climate projections been completed for Sable Island? Is the expectation that the successful bidder will produce climate projections? Has a climate change risk assessment been completed for the infrastructure on Sable Island? Is the expectation that the successful bidder will include a development of a climate change risk assessment in their scope to provide climate change mitigation measures? Is there an expectation that the plan will review climate change adaptation measures, or strictly mitigation measures?

- A2.
1. Have climate projections been completed for Sable Island? **No.**
 2. Is the expectation that the successful bidder will produce climate projections? **No**
PCA will be responsible to prepare climate projections.
 3. Has a climate change risk assessment been completed for the infrastructure on Sable Island? **No**
PCA will be responsible to develop a climate change risk assessment.
To date, PCA research scientists have prepared forecasts on the risks presented by coastline erosion. This information will be made available to the successful proponent.
 4. Is the expectation that the successful bidder will include a development of a climate change risk assessment in their scope to provide climate change mitigation measures?
PCA will be responsible to develop a climate change risk assessment.
