

**Mini Split Air Conditioners for High Commission in Georgetown, Guyana
REQUEST FOR PROPOSAL (RFP) # 22-210168**

**AMENDMENT NO. 01
DATE: April 21, 2022**

Amendment No. 01 is raised to respond to the following questions.

We remind all Bidders to address their questions to internationalproposals@international.gc.ca.

QUESTION 1:

As per ATTACHMENT 1 TO PART 4 - TECHNICAL EVALUATION CRITERIA, Mandatory Criteria M1, The Bidder must be an authorized dealer from the manufacturer for sales, service and warranty for air conditioning parts and equipment in the Guyana territory, Bidder should provide a copy of a letter from the manufacturer as an authorized dealer.

However, I have contacted directly the manufacturer brand Seer and they do not have any authorized distributors or installers. They are an online business only. With this answer it will be impossible to match the project expected scope Mandatory requirement. What would be your alternative recommended criteria?

RESPONSE 1:

Please note, Seer is not the brand or manufacturer but is the measure of quality and efficiency of the series. Bidders must ensure proposed Mini Split Air Conditioner meets the quality and efficiency as detailed in Annex A, Statement of Work, 5.3 Technical Specification and M1 Mandatory Criteria.
