Amendment 004 is being issued to make the following changes:

1. At Page 1, Solicitation Closes

Delete: 2022-04-29

Insert: 2022-05-11

2. Answer Questions.

The Contractor must complete JHAs for up to 100 federally regulated employee positions

Q1: Given that a JHA is typically task-based (and not position-based), will the Contractor be provided with a list of tasks?

A1: Yes, they will be provided with a full list of each positions tasks.

Q2: Can you provide clarity around number of tasks per position and volume of work?

A2: For example, one position could have 5 tasks (resulting in 5 hazard assessments) versus. another position could have 10 tasks (resulting in 10 hazard assessments), and so for 100 positions this could potentially be upwards of 500 hazard assessments or more. I am unsure about this at the moment as I would have to circulate this now to gather the information. It could be 1-5 tasks per person.

Q3: Is there a minimum or maximum number of tasks per position expected to be assessed?

A3: Let's say 5 being max, but I want to ensure all the bigger hazardous tasks are being covered and accounted for.

Q4: What is the average number of tasks per position?

A4: 5

Q5: Do you anticipate there will be overlap in tasks, and if so, what percentage do you anticipate?

A5: Yes...Not sure exactly how much yet.

Q6: Do you have an established JHA procedure, and if so, could that be shared for reference?

A6: No, this is the first JHA we are conducting so we don't have a procedure in place. We have provided a table and template in the SOW.
