### AMENDMENT 010

The purpose of this amendment is to answer industry questions and complete the statement of work accordingly.

#### **AMENDMENTS**

##### **1) In the Annex A, Statement of Work, at the end of section 4. General Requirements**

#### **INSERT:**

m. All wiring must be copper

#### **ANSWERS TO INDUSTRY QUESTIONS**

##### **Enquiries - Bid Solicitation**

To ensure consistency and quality of information provided to bidders, significant enquiries received and the replies to such enquiries will be provided simultaneously to bidders to which the bid solicitation has been sent, without revealing the sources of the enquiries.

Here are the questions which we have received:

<b>Question 1</b>	How often is 2C discharging of the battery required? Has dispatching modelling been completed?
<b>Answer 1</b>	2C discharge rate frequency of the battery would be once a day for 30 minutes to meet a peak power draw of 180 kW.  Dispatching modelling has not been completed.
<b>Question 2</b>	Is aluminum wiring acceptable?
<b>Answer 2</b>	Due to the remote location, lack of potential regular access, for fire safety and increased maintenance to verify electrical connections, aluminum wiring is not acceptable. Copper wiring must be used.

**\*\* ALL OTHER TERMS AND CONDITIONS REMAIN THE SAME \*\***
