Amendment 005 is being issued to make the following changes:

Answer Questions.

Q1: As there are meetings required every 3 weeks - how do you want this cost captured. Is this captured in the hourly administrative rate? How long will meetings last?

A1: Yes this is captured in the hourly administrative rate. These are regular update meetings and can last anywhere from 30-60 minutes.

Q2: There is reference to on site visits, is there an estimate for how many there will be?

A2: More than half of them would be onsite as most people deal with hazards while on site. There are a few people who Work From Home for most of their tasks.

Q3: Is there travel allowance for any site visits?

A3: No, there is no travel allowance for any site visits.

Q4: The mandatory criteria list a degree in occupational hygiene. Would a degree in chemical engineering with 30 years of safety experience be considered equivalent?

A4: No, they would need to provide us with some type of proof as they do not have an official certificate in occupational hygiene. We would require proof of experience in a certain field. Chemical engineering degree will not be relevant in this case. There is a difference in having experience in safety and being certified in a particular subject.
