Solicitation Amendment # 008

This amendment is hereby raised :

- 1. To include Questions and the Responses for the solicitation.**
-

1. Questions and the Responses for the solicitation.

Q#1: In section H-36 - Washroom Upgrades

3.2.3 they refer to the shower enclosures similar to the Chief Engineers Cabin.
Is there pictures of the C/E shower enclosure for reference?

3.3.3 the contractor must supply and install new solid deck head panels. New panels must be the same as the existing to insure fitment into existing mounting tracks.
Is there pictures/measurements of existing?

A#1: The CE's shower and washroom can be viewed on the on the Ship's Virtual Scan, however, additional pictures are shown below.

The washroom ceiling panels are solid, non-perforated and are 300mm in total width. Technical specification sheets for ceiling panels are attached at the end of this AMD.

Q#2: Section H-35 common area flooring and wall coverings renewal

- 3.1.20 & 3.1.21 refinishing the bulkheads with Gislaved Folie color scheme #1320-026-F25A. this color is no longer available.

Please see response from Gislaved suggested the alternatives below:

“1320-026-F25A is not in our standard range anymore, do you think the client can choose 1320-026-F25K, same design but some color difference.
1320-026-F25A is NCS color code S 2005-Y30R
1320-026-F25K is NCS color code S 2010-Y50R “

- Do you have pictures of the existing wall panels to see what the construction of these panels are? Do the panels have a clip joint or a baton or spline attaching the panels together? And do they need to be covered as well?

A#2: The colour choice for the Gislaved wall coverings will be confirmed with the CE upon Contract award.

The existing wall panels are spline-joint, 50mm thick wall panels. All new wall panels being supplied and installed by the Contractor must be removable style panels complete with new tracks, supports, connecting strips and all related hardware.

Gislaved Coverings will have to be installed on all wall panels as detailed in Sections 3.1.2 – 3.1.6 of the SOW. The existing wall panels throughout accommodations can be viewed on the Ship's Virtual Scan.

Standard ceiling panel system

C-511 / C-520 (With hanger support) C-512 (Without hanger support)

● C-511 / C-512

● C-520 (Perforated type)

Description	C-511 / C-512 (In ship)	C-520
Thickness	25mm	25mm
Fire class	B-0	B-0
Dimension	Standard width : 300mm , Maximum length : 5000mm	
Weight	7.5kg/m²	6.3kg/m²
Sound reduction	STC 40 dB / STC 43 dB	STC 47 dB
Thermal transmittance	1.25kcal/m²h°C	1.25kcal/m²h°C
Core material	Mineral wool	
Surface finish	0.6mm thickness galvanized steel sheet finished with decorative material	
Tolerance	Width ±0.5mm, Length ±1mm, Thickness ±0.5mm, Rectangularity ±1mm
