This amendment is being raised to answer questions from industry.

Question 1: *Would Canada accept any proposals where the proponent does not have experience servicing all 5 categories/types of instruments listed in Appendix A? I do have significant experience (>25 years) servicing and calibrating centrifuges and solid experience with incubators, but not the other 3 categories.*

Answer 1: No, DRDC will not accept a technician who doesn't have experience in service and repair of all types of listed equipment.

Question 2: *Since there are 111 instruments to be inspected and PM'd as per sections 5.1 and 5.2 and that both tasks be completed within 5 days, are we only allotted (or expected) to spend roughly 20 minutes per instrument?*

Answer 2: PM/Inspections may occur in subsequent visits, as determined and scheduled by the TA.

Question 3: *Can you confirm that you only require an ISO9001:2015 calibration/certification for your Equipment as required and as part of your semi-annual preventative maintenance*

Answer 3: Yes.

Question 4: *Can you confirm that all of the equipment, except one unit labelled as Redtech, are located at the Ralston, AB Site. Can you confirm that the instrument labelled Redtech is at the Redcliffe site ?*

Answer 4: Yes.

Question 5: *Are we able to submit a proposal only for the Beckman Coulter instruments? Or should the proposal be for all the listed instruments?*

Answer 5: No, a proposal for only the Beckman Coulter instruments would not be accepted. A proposal must include the ability to service all listed instruments to be considered.

ALL TERMS AND CONDITIONS REMAIN THE SAME
