AMENDMENT 006

Solicitation Amendment 006 is raised to:

1. Respond to questions from the industry;
2. Modify the related sections of the Bid Solicitation in accordance with the answers provided.
3. Bid Solicitation closing date extension.

QUESTIONS AND ANSWERS

Question 13:

We have a Question about this tender.

Would it be possible to change the tender to include turnkey supply and Installation of the Diesel Gensets on the CCGS Earl Grey?

Answer 13:

Due to operational requirements, this solicitation cannot be changed to include installation.

Question 14:

I have a question in regards to the above solicitation for the CCGS Earl Grey – generator supply contract.

Ref 3.3.2: Maximum footprint of the genset

Requirement: maximum length of 3050 mm. Since the existing D16MG gensets have a total length exceeding 3050 mm, and the picture shows ample space in front of the existing gensets, can this length requirement be modified to 3150 mm ?

Answer 14:

The Vessel can accommodate new gensets with a maximum overall length of 3200 mm.

MODIFICATION TO THE BID SOLICITATION

Related to the Answer to **Question 14** above, reference Annex A, TSOR is amended as follows:

Delete: Section 3.3.2 in its entirety;

Insert: Each complete Genset must be mounted on a common, skid-type steel base frame. The engines/alternators must be either insulated from the frame by suitably rated and oil resistant anti-vibration mounts, or rigidly mounted on the base frame with anti-vibration mounts mounted under the base frame, as long as each engine/alternator set comes on one continuous skid suitably isolated from the vessel. The complete Genset skid assemblies must be capable of fitting into a maximum footprint of **3200 mm** in length by 1560 mm in width. The Gensets must be a maximum of 1700 mm in height.
