QUESTION AND ANSWER

Question 25:

Please clarify what is meant by the 'original version' of any Mandatory Technical Criteria at para 4.1.1.7.

Answer 25:

An original version of a document has a wet signature. A wet signature is a signature on a printed document in wet ink (ex. a pen). For any supporting documentation submitted for this requirement where there is a wet signature, the RCMP will accept a scanned copy of the signed document. However, the RCMP reserves the right to request the original version of the document with the wet signature. For any supporting documentation that has a digital or electronic signature or any supporting documentation without a signature, the RCMP reserves the right to verify and validate the documentation submitted in accordance with Article 16 of the 2006 Standard Instructions, which are incorporated into and form part of the solicitation.

Question 26:

In Annex A Basis of Payment, the Replaceable Buckle and Removable Support are identified as items in the pricing grid to provide pricing for, 'if applicable'. This suggests that if a bidder doesn't provide pricing for the buckle or support as individual items, then they would have a lower total over-all price when adding items 1a-4a Ergonomic Duty Belt and items 1b-3b added Duty Belt for the Evaluated Price. Should then, the buckle and support pricing be mandatory, or alternatively evaluate each individual line item for award?

Answer 26:

Annex A has been amended.

Delete:
Annex A – Requirement and Basis of Payment in its entirety
